FINANSBANK ANONİM ŞİRKETİ AND ITS FINANCIAL SUBSIDIARIES

INDEPENDENT ACCOUNTANTS' LIMITED REVIEW REPORT FOR THE PERIOD JANUARY 1 – MARCH 31, 2009

We have reviewed the accompanying balance sheet of Finansbank A.Ş. ("The Bank") and its financial subsidiaries ("The Group") as of March 31, 2009 and the related statements of income, changes in shareholders' equity and cash flows for the period then ended. These financial statements are the responsibility of the Bank's management. As independent accountants our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information, it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements are not presented fairly, in all material respects, the financial position, the results of its operations and its cash flows, of the Group for the period ended March 31, 2009 in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 and No: 38 of the Banking Act No: 5411, and other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Group's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

SECTION THREE

ACCOUNTING POLICIES

I. Basis of presentation

1. Preparation of the consolidated financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents

The Turkish Banking Law No 5411 is published in the Official Gazette No 25983 dated November 1, 2005. The Parent Bank and its subsidiaries (the Group) prepared the accompanying consolidated financial statements and the related disclosures and footnotes in accordance with accounting and valuation standards as described in the "Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents", dated November 1, 2006 which is published in the Official Gazette No 26333, "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated February 10, 2007 which is published in the Official Gazette No 26430, Turkish Accounting Standards (TAS), Turkish Financial Reporting Standards (TFRS) and other circulars, communiques and pronouncements in respect of accounting and financial reporting made by the Banking Regulation and Supervision Agency (BRSA).

In accordance with Law No: 5083 "Law on the Currency Unit of the Republic of Turkey", the name of the Republic of Turkey's monetary unit and its sub-currency unit is changed to the New Turkish Lira (TL) and the New Kuruş (NKR), respectively. However, in accordance with the additional order of the Council of Ministers in regards to the Order on the Removal of the Expression "New" in the New Turkish Lira and the New Kuruş and Its Application Principles, the expression "New" used in the Republic of Turkey's monetary unit is removed both from TL and NKR as of January 1, 2009.

Financial statements and the related disclosures and footnotes have been presented in thousands of TL unless otherwise specified.

2. Other classifications

The Group has classified TL 2,253,880 housing loans which was accounted for under "Loans and Other Receivables" as of December 31, 2008 to "Financial Assets at Fair Value through Profit and Loss (net)" in line with the BRSA Communique, numbered 6239, presentation of financial statements dated April 2, 2009.

3. Accounting policies and valuation principles used in the preparation of the financial statements

Accounting policies and valuation principles used in the preparation of the financial statements are determined and applied in accordance with the requirements of TAS, TFRS, "Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents", dated November 1, 2006 which is published in the Official Gazette No 26333, "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated February 10, 2007 which is published in the Official Gazette No 26430 and the other regulations, announcements and circulars about the accounting and financial reporting which have been published by Banking Regulation and Supervision Agency ("BRSA").

4. Presentation of the financial statements according to the current purchasing power of the money

The Group's financial statements have been prepared in accordance with TAS 29 "Reporting in Hyperinflationary Economies" until December 31, 2004. By a circular declared by BRSA on April 28, 2005, it was stated that the indicators of a need for inflation accounting have been ceased and inflation accounting would not be applied starting from January 1, 2005.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

Explanation for Convenience Translation to English

The accounting principles used in the preparation of the accompanying financial statements differ from International Financial Reporting Standards (IFRS). The effects of the differences between these accounting principles and the accounting principles generally accepted in the countries in which the accompanying financial statements to be used and IFRS have not been quantified in the financial statements.

II. Strategy for the use of financial instruments and the foreign currency transactions

1. Strategy for the use of financial instruments

The major funding sources of the Parent Bank are customer deposits and funds borrowed from international markets. The customer deposits are with fixed rate and have an average maturity of 1-3 months. Funds borrowed from abroad are generally with floating rates and are repriced at an average period of 3-6 months. The Parent Bank diverts its placements to assets with high return, low risk and sufficient collaterals. The Parent Bank manages the liquidity structure to meet its liabilities when due by diversifying the funding sources and keeping sufficient cash and cash equivalents. The maturity of fund sources and maturity and yield of placements are considered to the extent possible within the current market conditions and higher return on long-term placements is aimed.

Among the operations of the Parent Bank, the main activities generating yields higher than the calculated average yield are credit card transactions.

Besides customer deposits, the Parent Bank funds its long term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank converts the foreign currency liquidity obtained from the international markets to TL liquidity with long term swap transactions (fixed TL interest rate and floating FC interest rate). Thus, the Parent Bank generates TL denominated resources for funding long term loans with fixed interest rates.

The Parent Bank has determined securities portfolio limits based on the market risk limitations for money, capital and commodity markets. Products included in the securities portfolio are subject to position and risk limits. Position limits restrict the maximum position based on the product with a certain ratio of capital. Risk limits are expressed in terms of "Value at Risk (VAR)" by taking the risk tolerance as a cap. The maximum VAR amounts are determined for the three main product groups, which comprise the securities portfolio. The above mentioned limits are revised annually.

The strategies for hedging exchange rate risk generated from the Group's foreign currency available-for-sale investment securities are explained in foreign currency risk section and the applications regarding the hedging of interest rate risk generated from deposits with fixed or floating interest rates are explained at Interest Rate Risk section in detail.

Hedging strategies for foreign exchange risk resulting from other foreign currency transactions are explained in foreign currency risk section.

2. Foreign currency transactions

2.1. Foreign currency exchange rates used in converting transactions denominated in foreign currencies and presentation of them in the financial statements

The Group accounts for the transactions denominated in foreign currencies in accordance with TAS 21 "The Effects of Changes in Foreign Exchange Rates". Foreign exchange gains and losses arising from transactions that are completed as of March 31, 2009 are translated to TL by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities(except for non-monetary items) are translated into TL by using foreign currency exchange rates of the Parent Bank and the resulting exchange differences are recorded as foreign exchange gains and losses. The Parent Bank's foreign currency exchange rates for the related period ends, are as follows:

	<u>March 31, 2009</u>	<u>December 31, 2008</u>
US Dollar	TL 1.6880	TL 1.5123
Euro	TL 2.2258	TL 2.1408

Finansbank Anonim Şirketi

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

2.2. Foreign exchange gains and losses included in the income statement

The net foreign exchange loss included in the consolidated income statement is TL 7,304 (March 31, 2008 net foreign exchange loss of TL 5,770)

2.3. Foreign subsidiaries

As of March 31, 2009 the Parent Bank does not have any subsidiary established abroad. The Parent Bank sold its subsidiary Finans Malta Holdings Ltd., of which the Parent Bank has 100% shares, on February 23, 2009 to NBG International Holdings B.V. The profit amounting to TL 43,324 resulting from this sale is presented as "Income on sale of associates, subsidiaries and entities under common control" under the "Income on Discontinued Operations" in the current period income statement. The income and loss from the above mentioned subsidiary recognized between January 1, 2009 and the sale date of February 23, 2009 are presented as "Income on Discontinued Operations" and "Expenses on Discontinued Operations" in the consolidated financial statements. TL 54,098 is accounted for under "Other Income on Discontinued Operations" (January 1 – March 31, 2008 – 68,532) and TL 39,067 is accounted for under "Other Expenses on Discontinued Operations" (January 1 – March 31, 2008 – TL 49,435).

III. Information on associates and subsidiaries

The accompanying consolidated financial statements are prepared in accordance with TAS 27 "Consolidated and Separate Financial Statements".

The subsidiaries and associates included in consolidation and their places of incorporation, nature of activities and shareholding percentages are as follows:

	Place of Incorporation	Principal Activity	Effective Shareholding and Voting Rights (%)	
			March 31, 2009	December 31, 2008
1. Finans Yatırım Menkul Değerler A.Ş. (Finans Yatırım)	Turkey	Securities Brokerage Intermediary	100.00	100.00

7. Finansbank Malta Limited (*)	Malta	Banking	-	100.00
8. Finans Malta Holdings Limited (*)	Malta	Holding	-	100.00

(*) In the prior period the Parent Bank included Finans Malta Holdings Ltd. of which the Parent Bank owned 100% of the shares and its subsidiary Finansbank Malta Limited in consolidation; in the current period due to the sales of these subsidiaries to NBG International Holdings B.V on February 23, 2009 the Parent Bank excluded these subsidiaries from consolidation in the current period.

Subsidiaries which are incorporated in Turkey, maintain their books of account and prepare their financial statements in accordance with the regulations on accounting and reporting framework and accounting standards which are determined by the accounting standards promulgated by the Turkish Capital Markets Board regulations, Turkish Commercial Code and Financial Leasing Law and the foreign subsidiaries maintain their books of account and prepare their statutory financial statements in accordance with the regulations of the countries in which they operate. Certain adjustments and reclassifications were made on the financial statements of the subsidiaries for the purpose of fair presentation in accordance with the prevailing regulations and accounting standards according to the Articles 37 and 38 of the Turkish Banking Law No 5411 and other regulations, circulars, communiqués and pronouncements in respect of accounting and financial reporting issued by the BRSA.

Differences between the accounting policies of the subsidiaries and associates and the Parent Bank are adjusted, if material. The financial statements of the subsidiaries are prepared as of March 31, 2009, December 31, 2008 and March 31, 2008.

Finansbank Anonim Şirketi

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

1. Subsidiaries

As of March 31, 2009, December 31, 2008 and March 31, 2008 the financial subsidiaries are fully consolidated and intercompany transactions and balances, including intercompany profits and losses are eliminated.

2. Associates

The Parent Bank does not have any associates or entities under common control that are consolidated in the accompanying financial statements.

IV. Explanations on forwards, option contracts and derivative instruments

The Group enters into forward currency agreements and swap transactions to reduce the foreign currency risk and interest rate risk and manage foreign currency liquidity risk. The Group also carries out currency and eurobond option, swaption, credit default swap and futures agreements.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps, options and futures are categorized as "hedging purpose" or "trading purpose" transactions and reflected at their fair values. Derivatives are initially recognized at cost including the transaction costs. Also, the liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual values. The derivative transactions are accounted for at fair value subsequent to initial recognition and are presented in the "Assets on Trading Derivatives" and "Liabilities on Trading Derivatives" items of the balance sheet depending on the resulting positive or negative amounts of the computed value. These amounts presented on the balance sheet, represent the fair value differences based on the valuation.

Fair values of forward foreign currency purchase and sales contracts, currency and interest swap transactions are calculated by using internal pricing models based on market data. The unrealized gains and losses are reflected in the income statement in the current period.

The Parent Bank funds its long term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank changes the foreign currency liquidity obtained from the international markets to TL liquidity with long term swap transactions (fixed TL interest rate and floating FC interest rate). Therefore, the Parent Bank not only funds its long term fixed interest rate loans with TL but also hedges itself against interest rate risk.

The fair value differences regarding the derivative financial instruments held for the fair value hedge purposes are accounted under "Securities Trading Gains/Losses", except for the foreign currency valuation differences. These foreign currency valuation differences are accounted for under "Foreign Exchange Gains/Losses" account. In accordance with the hedge accounting policies, hedge loan portfolio is also accounted for at fair value and all valuation differences are also accounted for under trading "Securities Trading Gains/Losses".

Fair values of option contracts are calculated with option pricing models and the resulting unrealized gains and losses are reflected in the current period income statement.

Futures and swaption transactions are accounted for at settlement prices obtained from counterparties as of the balance sheet date and related unrealized gains and losses are reflected in the current period income statement.

Credit default swap transactions are accounted for at market prices as of the balance sheet date and related unrealized gains and losses are reflected in the current period income statement.

V. Interest income and expenses

Interest income and expenses are recognized in the income statement for all interest bearing instruments on an accrual basis using the effective interest rate method. In accordance with the related regulation, the interest receivables and accruals of non-performing loans are cancelled and not recorded as interest income until collected.

Finansbank Anonim Şirketi

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Fees and commission income and expenses

Fees and commission income and expenses are accounted on an accrual basis, except for certain transactions that income is recognized immediately. Other fee and commission expenses are considered as transaction cost and included in the amortized cost by using internal rate of return method. Income related to sale and purchases of assets on behalf of third parties are recorded when collected.

Dividend income is accrued when the subsidiaries' and associates' profit distribution decisions are approved. Dividend income from subsidiaries are eliminated in the accompanying financial statements by adjusting in the retained earnings as part of the consolidation principles.

VII. Explanation on financial assets

Financial assets comprise cash and cash equivalents and the contractual right to obtain cash or another financial asset from counterparty or to exchange financial assets with counterparty or the equity instrument transactions of the counterparty. Financial assets are classified in four categories; as "Financial Assets At Fair Value Through Profit Or Loss", "Investment Securities Available-For-Sale", "Investment Securities Held-To-Maturity", and "Loans And Other Receivables". The classification of the financial assets is determined at the initial inception of the related financial assets.

1. Financial assets at fair value through profit or loss

1.1. Trading securities

The Group accounts for its trading securities at fair value. The difference between interest income that has been gained by holding the trading securities and acquisition cost and fair value of the trading securities, is reflected as interest income in the income statement. If any of the these financial assets are sold before their maturity, the gain or loss is realized as securities trading gains / losses.

1.2. Financial assets at fair value through profit or loss

The Parent Bank has classified its mortgage loans that were initiated between January 1, 2006 – December 31, 2007, as financial assets at fair value through profit or loss in compliance with TAS 39. These loans are presented under "Financial Assets At Fair Value Through Profit Or Loss (Net)" in the financial statements. The Parent Bank has not classified its mortgage loans that were initiated after January 1, 2008, as financial assets at fair value through profit or loss.

The Group has government bonds in its financial assets at fair value through profit or loss.

Financial assets at fair value through profit or loss of the Group are initially recorded at cost and are followed at fair value in the following periods.

Fair value of financial assets at fair value through profit or loss has been determined by using effective interest rates used for similar financial assets within the market.

2. Investment securities available for sale

Available for sale assets represent financial assets other than financial assets at fair value through profit or loss, loans and other receivables and investment securities held to maturity.

Premiums and discounts on investments securities available-for-sale are considered in computing the internal rate of return and are included in interest income in the income statement. Accrued interest income on investment securities available for sale are recognized in the income statement whereas gains and losses arising from the change in the fair values of such securities are reflected in equity net of their tax effect under "Securities value increase fund" (Unrealized Gains/Losses on Securities). When investment securities available for sale are sold, collected or otherwise disposed of, the cumulative fair value adjustments under equity is transferred to the income statement.

When the fair value of an available for sale security cannot be computed, it is accounted for at amortized cost.

Some portion of the eurobond portfolio which have been recognised as available for sale securities are designated as fair value hedged items starting from March 2009. Those securities are disclosed under

Finansbank Anonim Şirketi

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

Investment Securities Available for Sale in order to be in line with balance sheet presentation. The fair value differences of hedged items are accounted for under "Securities Trading Gains/ Losses" at the income statement.

3. Investment securities held to maturity

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability and excluding loans and receivables.

As of October 1, 2008, due to the change of the intention, the Parent Bank classified securities from trading portfolio and available for sale portfolio to held to maturity portfolio with the nominal values of TL 94,198 and TL 2,549,613, respectively. The intention of the Parent Bank regarding the holding the held to maturity portfolio has changed in 2009. As it is stated in TAS 39, paragraph 51, "while the intention or the possibility of holding the securities until the maturity changes, or when the investments become inappropriate to be classified as held to maturity; the related investments should be classified as investment securities available for sale and should be re-measured at their fair values"; the Parent Bank classified TL 2,643,811 nominal amount of held to maturity portfolio to available for sale portfolio effective from March 31, 2009 based on the Board of Directors' decision dated April 16, 2009. Because of this classification, the Parent Bank will not be able to classify any financial asset as held to maturity investment in 2009 and the following two years.

4. Loans and specific provisions

The Group initially records loans and receivables at cost; except for the loans that are recorded with fair value through profit or loss and loans subject to fair value hedge in subsequent periods, these loans are carried at amortized cost by using the effective interest rate method. Taxes, transaction costs and other expenses paid for the guarantees taken are not considered as part of the cost of the transactions and expensed in the related period.

As it is mentioned in note "IV. explanations on forward, option contracts and derivative instruments", the Group entered into swap transactions against TL in order to hedge the possible losses which might arise due to the changes in the fair value of a certain portion of its long-term loans. The Parent Bank accounted for the hedged part of the loan portfolio at fair value, together with the swap transactions used as the hedging instrument and the related net gain or loss was included in the income statement in accordance with TAS 39. The Bank initially applied fair value hedge accounting for mortgage loans and automotive loans as of January 1, 2005 and ceased it as of December 31, 2005. The fair value effect of the hedge accounting which had been applied during January 1 – December 31, 2005 is amortized through income statement until the maturity of the related hedged loan portfolio.

In accordance with TAS 39, the Parent Bank classified the mortgage loans granted during January 1, 2006 – December 31, 2007 as financial assets through profit and loss. In order to be in compliance with the balance sheet presentation, these financial assets classified under loans. These loans are accounted for at their fair values in the accompanying financial statements. The Parent Bank has not classified the mortgage loans granted after January 1, 2008 at fair value through profit and loss.

After November 1, 2008 the Parent Bank started to apply fair value hedge again. As of the balance sheet date, all consumer loans, mortgage loans granted after January 1, 2008 are classified as financial assets hedged from fair value risk. In accordance with this, these loans measured at fair value. The valuation differences are accounted for under loans in order to be in compliance with the balance sheet presentation. The related income / expenses are accounted for under "Securities Trading Gains / Losses".

The Parent Bank has also included the auto loans initiated after January 1, 2006 into the fair value hedge accounting. However, since the fair value hedge accounting could not be effectively continued as stated at TAS 39, the fair value hedge accounting was ceased for those auto loans starting from February 1, 2009. The fair value difference of fair value hedge between November 1, 2009 and February 1, 2009 is being reflected into the income statement throughout the life of loan portfolio.

Provision is set for the loans that maybe doubtful and amount is charged in the current year income statement.

AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

— If there is evidence for the uncollectibility of loans, the Parent Bank classifies related loans and advances in non performing loans and provides specific and general provision in accordance with the Communiqué dated November 1, 2006, published on the Official Gazette No 2633 and revised with the Communiqué dated January 23, 2009, published on the Official Gazette No 2719 “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”. According to the temporary second article of the revised Communiqué dated January 23, 2009, the Parent Bank does not provide any specific provision for the loans which are not at default whereas the other loans of the same loan customer are classified as non-performing loans. The Parent Bank provides 100% specific provision for non-performing loans, other than those loans stated above, without taking into consideration the collaterals obtained for these loans. The related provisions are charged in the current year income statement.

The Parent Bank also provides specific provisions for the closely monitored loans as a result of risk assessment. These provisions accounted for in liabilities under other provisions as “Free Reserves for Possible Loan Losses”.

Except for specific provisions and free reserves for possible loan losses within the framework of the regulation referred to above, the Parent Bank provides general loan loss provision and presents it in the liabilities as “General Provisions”.

The provisions provided for loans are accounted for under “Provision for Loan Losses and Other Receivables” in the statement of income.

The collections made in relation to amounts provided in the current period are offset against the “Provision for Loan and Other Receivables” in the income statement. The principal collections made related to the loans that were written-off or for which a provision was provided in the previous years are recorded under “Other Operating Income” and interest collections are recorded under the “Interest on Loans under Follow-up” account.

VIII. Impairment of financial assets

If the amount computed by discounting expected future cash flows of financial asset using the effective interest rate method or (if any) the fair value is lower than the carrying value of financial assets, impairment can be recognized. Provision is provided for impairment of the financial assets and recorded to related expense accounts.

IX. Netting of financial instruments

In cases where the fair values of trading securities, securities available-for-sale, securities quoted at the stock exchanges, associates and subsidiaries are less than their carrying values, a provision for impairment is allocated, and the net value is presented on the balance sheet.

The Group provides specific allowances for loans and other receivables in accordance with “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” and offset against overdue loans in the assets.

Financial assets and liabilities other than those explained above are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously.

The unearned interest income related to leasing agreements are presented by netting off with the “Leasing Receivables”. Additionally, the specific provision is provided for non performing leasing receivables and netted off with leasing receivables.

AS OF MARCH 31, 2009**

(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

X. Sales and repurchase agreements and lending of securities

Securities sold under repurchase agreements are recorded on the balance in accordance with Uniform Chart of Accounts. Accordingly, government bonds and treasury bills sold to customers under repurchase agreements are classified as "Investments Subject to Repurchase Agreements" and valued based on the Group Management's future intentions, either at market prices or using discounting method with internal rate of return. Funds received through repurchase agreements are classified separately under liability accounts and the related interest expenses are accounted for on an accrual basis.

Securities that are subject to repurchase agreements amounted to TL 617,429 as of March 31, 2009 (December 31, 2008 - TL 256,276).

Securities that are subject to lending transactions amounted to TL 1,500 as of March 31, 2009 (December 31, 2008 - TL 1,604).

Securities purchased with a commitment to resell (reverse repurchase agreements) are recorded in a separate account under "Interbank Money Market Takings" in the balance sheet. The difference resulting from purchase and resale prices is treated as interest income and accrued over the life of the agreement.

XI. Assets held for sale and discontinued operations

Assets held for sale are those with highly saleable condition requiring a plan by the management regarding the sale of the asset to be disposed, together with an active program for determination of buyers as well as for the completion of the plan. Also, the asset shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or canceling the plan is low.

The Group does not have assets held for sale.

A discontinued operation is a part of the Group's business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Parent Bank has transferred its shares of Finans Malta Holdings LTD, which the Parent Bank used to own 100% shares, through its sale to NBG International Holdings B.V. on February 23, 2009.

XII. Goodwill and other intangible assets

The Group's intangible assets consist of softwares and intangible rights.

The cost of intangible assets purchased before December 31, 2004 are restated from the purchasing dates to December 31, 2004. The intangible assets purchased after December 31, 2004 are recorded at their historical cost less accumulated amortization and provision for impairment, if any. Amortization is calculated on a straight-line basis.

Softwares have been classified as other intangible fixed assets. The useful life of softwares is determined as 5 years for periods before 2004 while the useful life for additions in 2004 and 2005 are determined as 3 years.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

The difference between the acquisition cost of the subsidiaries and the net assets of the subsidiaries less impairment, if any, is represented as goodwill. An assessment for impairment is conducted for each balance sheet date, if there are any instances and changes indicating that the carrying amount of the goodwill would not be realized.

XIII. Tangible Assets

The cost of tangible assets purchased before December 31, 2004 are restated from the purchasing dates to December 31, 2004. The tangible assets purchased after December 31, 2004 are recorded at their historical cost less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of tangible assets. The annual rates used are as follows:

Properties	%2
Movables purchased and acquired under finance lease contracts	%7 - %25

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than a year as of the balance sheet date.

Net book value of the property and leased assets under financial lease contracts are compared with the fair values determined by independent appraisers as of the year end and provision for impairment is recognized in "Other Operating Expenses" in the related period income statement when the fair value is below the net book value in accordance with "Turkish Accounting Standard on Impairment of Assets" (TAS 36).

Gains or losses resulting from disposals of the tangible assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; otherwise they are expensed.

There are no changes in the accounting estimates, which could have a significant impact on the current and future financial statements. There are no pledges, mortgages or other restrictions on the tangible assets.

There are no purchase commitments related to the fixed assets.

XIV. Leasing transactions

Fixed assets acquired under finance lease contracts are recorded under "Tangible Fixed Assets" on the asset side and under "Financial Lease Payables" on the liability side at the initial date of the lease. The basis for the determination of related balance sheet amounts is the lower of fair value of the leased asset and the present value of the lease payments. The direct costs incurred for a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period. Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets at the rate of 20% except for the buildings which are depreciated at the rate of 2%.

Total payments made under operating leases are charged to income statement on a straight-line basis over the period of the lease.

The gross lease receivables including interest and principal amounts regarding the Group's financial leasing activities as "Lessor" are stated under the finance lease receivables. The difference between the total of rental payments and the cost of the related fixed assets is reflected to the "unearned income" account. The interest income is recognized based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

XV. Provisions and contingent liabilities

Provisions, other than specific and general provisions for loans and other receivables, and contingent liabilities are provided for in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by the Bank. Whenever the amount of such obligations cannot be measured, they are regarded as "Contingent". If the possibility of an outflow of resources embodying economic benefits becomes probable and the amount of the obligation can reliably be measured, a provision is recognized. If the amount of the obligation cannot be measured reliably or the possibility of an outflow of resources embodying economic benefits is remote, such liabilities are disclosed in the footnotes.

Provisions made during the period are recorded under "Other Operating Expenses"; provisions that were booked in the prior periods and released in the current year are recorded under "Other Operating Income".

XVI. Obligations of the Group for employee benefits

Provision for employee severance benefits of the Group has been accounted for in accordance with TAS 19 "Employee Benefits".

In accordance with the existing social legislation in Turkey, the Group is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated due to resignation or for reasons other than misconduct. The retirement pay is calculated for every working year within the Group over salary for 30 days or the official ceiling amount per year of employment and the notice pay is calculated for the relevant notice period time as determined based on the number of years worked in the Group.

The Group has reflected the retirement pay liability amount, which was calculated by an independent actuary, in the accompanying financial statements.

The Group does not have any employees who work under limited period contracts with remaining terms longer than 12 months after the balance sheet date.

Provision for the employees' unused vacations has been booked and reflected to the financial statements.

There are no foundations, pensions or similar associations of which the Group employees are members.

XVII. Taxation

1. Corporate tax

In accordance with the Corporate Tax Law No. 5520 published in the Official Gazette No. 26205 dated June 21, 2006, effective from January 1, 2006, statutory income is subject to corporate tax at 20%. Advance corporate taxes paid are followed under current tax liability account and are deducted from the corporate taxes of the current year.

Companies file their tax returns between the 1st and the 25th day of the fourth month following the closing of the fiscal year to which they relate and the payments are made until the end of that month.

The provision for corporate and income taxes for the period is reflected as the "Current Tax Liability" and "Current Tax Provision" in the income statement.

Effective from April 24, 2003, statutory income, including retained earnings from 2002 and before, is not subject to withholding tax if retained, or transferred to share capital or distributed as dividend to the full fledged taxpayer corporations. However, it is subject to withholding tax at 10% if distributed as dividend to full fledged individual taxpayers, who are exempt from corporate and income taxes, non-resident taxpayer companies (except for those companies having local offices or representatives) and non-resident individual taxpayers. That withholding tax was increased to 15% by the Resolution of the Council of Ministers No 2006/10731, dated July 22, 2006.

2. Deferred taxes

In accordance with TAS 12 "Income Taxes", the Group accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Consolidated subsidiaries' deferred tax assets and liabilities at their financial statements have been offset and the balance of net deferred tax asset is disclosed as TL 3,669 (December 31, 2008- TL 3,167), and the net deferred tax liability as TL 25,086 (December 31, 2008 – TL 30,529).

As of March 31, 2009, deferred tax benefit resulting from temporary differences is TL 19,975 (March 31, 2008- TL 3,666 deferred tax benefit). The deferred tax benefit is reflected in "Provision for Deferred Taxes" and in "Provision for Deferred Taxes from Discontinued Operations" in the accompanying income statement. The confirmation of the deferred tax is explained in the notes to the consolidated balance sheet under liabilities section in note 9.2.

Deferred taxes directly related to equity items are recognized and offset in related equity accounts. The deferred tax liability amounting to TL 6,582 (December 31, 2008 – TL 8,206 of deferred tax asset) has been offset with "Securities Value Increase Fund" account under equity.

XVIII. Additional explanations on borrowings

The Group generates funds from domestic and foreign sources when this is necessary. The funds borrowed from foreign sources are mainly in the form of syndications and securitizations. The funds borrowed are measured at amortized cost by using the internal rate of return method.

The Group has not issued convertible bonds. There are no debt instruments directly issued by the Group. The funds obtained through the debt instruments issued by the special purpose vehicles (SPV's) are classified under funds borrowed.

XIX. Share issues

The Group has not issued any shares in the current period.

XX. Confirmed bills of exchange and acceptances

Confirmed bills of exchange and acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts as possible debt and commitment, if any.

There are no acceptances and confirmed bills of exchange presented as liabilities against any assets.

XXI. Government incentives

As of March 31, 2009, the Group does not have any government incentives or grants.

XXII. Segment reporting

In addition to corporate banking, consumer banking and commercial banking services, the Group also provides private banking, SME banking, treasury operations and credit card services through branches and alternative channels. The Group serves its consumer banking clients with demand, time deposits, also installment-based cash advance services, automatic account services, consumer loans, vehicle loans, housing loans and investment fund services. The Group provides services including deposit and loans, foreign trade financing, forward and option agreements to its corporate clients. The Group also serves in trading financial instruments and treasury operations.

The calculations based on the income statement on corporate and commercial banking, consumer banking, SME banking, plastic cards, that have operational units designated as the main profit centers, have been made according to the product and customer types. During the profitability calculations, the pricing of transfers among these units and treasury unit are made by using cost/return ratios that are determined by the Parent Bank's senior management and which are updated periodically. In this pricing method, general market conditions and the Parent Bank's internal policies are considered.

The Corporate Marketing Unit provides services to firms that are institutional, big size, that have annual revenue of USD 15 million and higher, and multi-national firms operating in Turkey. The firms that have annual revenue between USD 6 millions and 15 millions are considered as "Commercial Enterprise". The Parent Bank gives importance to the commercial segmentation in order to hedge risk and decrease the concentration of income.

The SME Banking Segment provides services to small and medium-size firms that have annual revenue between TL 750 and TL 6,000. The Parent Bank offers sectoral solution packages to these small and medium-size firms.

The Consumer Banking meets the needs and expectations of the retail banking customers. The Private Banking Unit has formed and started to operate to serve customers with high level income, in a more effective way. The installments, discounts and bonus advantages are provided to the users of Card Finans in the plastic cards line. The main function of Treasury Segment is managing the liquidity of the Bank and interest and foreign currency risks resulting from market conditions. This segment is in close relation with corporate, commercial, consumer, SME and private banking units in order to increase the number of customers and the volume of transactions in treasury products of the Bank.

SECTION FOUR

INFORMATION ON GROUP'S FINANCIAL STRUCTURE

I. Explanations Related to Consolidated Capital Adequacy Ratio

The Group's consolidated capital adequacy ratio is 17.89% as of March 31, 2009 (December 31, 2008 - 16.22%).

1. Risk measurement methods in the calculation of consolidated capital adequacy ratio

Capital adequacy ratio is calculated in accordance with the "The Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette No. 26333, dated November 1, 2006 and "The Regulation on Amendments to the Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette No. 26669, dated October 10, 2007. For the calculation of the capital adequacy ratio, the accounting records prepared in compliance with the current legislation are used. Moreover, market risk value is calculated in accordance with the "The Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" and factored into capital adequacy ratio.

The items deducted from the capital base are not included in the calculation of risk weighted assets, non-cash loans and liabilities. For the calculation of risk weighted assets, impairments, depreciation and amortization, and provisions are considered as deductions from related assets.

In the calculation of their risk-based values, non-cash loans are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on the Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves". The net amounts are then multiplied by the rates stated in the Article 5 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

In the calculation of the risk based values of the derivative financial instruments, such instruments are weighted again and classified according to the related risk groups after being multiplied by the rates stated in the Article 5 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

II. Information on Consolidated Market Risk

The Group has established market risk operations and has taken the necessary measures in order to hedge market risk within its financial risk management purposes, in accordance with the Regulation on "Banks' Internal Control and Risk Management Systems" and the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

Based on the proposal of High Level Risk Committee, the Board of Directors of the Parent Bank determines risk management strategies and policies for managing market risk and ensures periodic monitoring of the application of strategies. The Board of Directors of the Parent Bank determines the risk limits by considering the primary risk factors and those limits are revised as seen necessary. Additionally, the Board of Directors of the Parent Bank requires risk management group and the top management of the Group to take necessary actions in order to identify, measure, control and manage the risks that the Group is exposed to.

The market risk is measured by using an internal model developed with Value-at-Risk (VAR) methodology. VAR is calculated with 'Historical Simulation' method. 'Bank Risk Tolerance' is determined in order to manage the market risk efficiently and to keep the market risk within the desirable limits. Risk Management Group monitors the VAR balances daily for compliance with the Parent Bank Risk Tolerance.

Periodic stress tests and scenario analysis are used to support results of VAR. Furthermore, conventional risk measurement methods such as cash flow projection, duration and variation analysis are also used.

The capital required for General Market Risk and Specific Risk is calculated and reported monthly in accordance with the Standard Method defined in the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

III. Explanations related to Consolidated Foreign Currency Exchange Rate Risk

1. Whether the Group is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the Board of Directors of the Parent Bank sets limits for positions that are monitored daily

As of March 31, 2009, the net foreign currency exposure of the Group is TL 187,531 short (December 31, 2008 -TL 239,602 long) resulting from on balance sheet short position amounting to TL 4,884,725 (December 31, 2008 -TL 4,172,461 short) and long off balance sheet position amounting to TL 4,697,194 (December 31, 2008 -TL 4,412,063 long). The long off balance sheet position amounting to TL 4,608,683 (December 31, 2008- TL 4,180,364) is related with the FC/TL swap transactions performed with banks and customers. The Group performs these transactions to manage foreign currency liquidity risk and to hedge itself from interest rate risk.

The Group enters into foreign currency forward transactions to decrease foreign currency position risk. The Group also engages in foreign currency and Eurobond buy-sell option transactions.

Position limit related with currency risk is determined according to Foreign Currency Net Position Standard Ratio. Measurable and manageable risks are taken within legal limits.

Foreign Currency Exchange Rate Risk is monitored along with potential evaluation differences in foreign currency translations in accordance with "Regulations on Bank's Internal Control and Risk Management Systems". Standard method is used in measuring foreign currency exchange rate risk on a weekly basis.

2. The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using derivatives

The Group does not hedge foreign currency borrowings and net foreign currency investments by derivative instruments.

3. The Parent Bank's spot foreign exchange bid rates as of the balance sheet date and for each of the five days prior to that date

US Dollars purchase rate in the balance sheet date TL 1.6880

Euro purchase rate in the balance sheet date TL 2.2258

<u>Date</u>	<u>US Dollar</u>	<u>Euro</u>
March 31, 2009	TL 1.6880	TL 2.2258
March 30, 2009	TL 1.6566	TL 2.2257

March 25, 2009	TL 1.6473	TL 2.2348
March 24, 2009	TL 1.6615	TL 2.2656

4. The basic arithmetical average of the Parent Bank's foreign exchange bid rate for the last thirty days

The arithmetical average of the Parent Bank's US Dollars and Euro purchase rates for March 2009 are TL 1.7045 and 2.2187; respectively.

IV. Explanations related to Consolidated Interest Rate Risk

Interest rate risk that would arise from the changes in interest rates depending on the Parent Bank's position is managed by the Asset/Liability Committee of the Parent Bank.

Interest rate sensitivity of assets, liabilities and off balance sheet items is analyzed by top management in the Asset/Liability Committee meetings held every two weeks by taking the market developments into consideration.

The management of the Parent Bank follows the interest rates in the market on a daily basis and revises interest rates of the Parent Bank when necessary.

The assets and liabilities of the Parent Bank carry a positive interest yield, assets and liabilities are repriced within an average of 6 months. Consequently the Parent Bank carries limited interest rate risk.

Besides customer deposits, the Parent Bank funds its long term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank changes the foreign currency liquidity obtained from the international markets to TL liquidity with long term swap transactions (fixed TL interest rate and floating FC interest rate). Therefore, the Parent Bank not only funds its long term fixed interest rate loans with TL but also hedges itself from interest rate and maturity risk.

V. Explanations Related to Consolidated Liquidity Risk

- The sources of the current liquidity risk of the Group; whether the necessary precautions have been taken, whether the Board of Directors of the Parent Bank sets limits on the funds available to meet the urgent liquidity requirements and to be able to pay borrowings when they become due**

Liquidity risk represents risk of not having sufficient cash or cash inflows to meet the cash outflows completely and on time, as a result of instable cash flows. Liquidity risk may also result from inability to penetrate to market and to close open positions quickly at suitable prices and with sufficient amounts due to market disruptions or barriers. To mitigate liquidity risk, the Group diversifies funding sources as customer deposits and funds borrowed from abroad and keep certain level of assets as cash and cash equivalents.

The Parent Bank evaluates liquidity position on a daily basis. Cash flow projections and scenarios are analyzed every two weeks by the top management at Asset/Liability Committee meetings. Liquidity ratio, calculated monthly by the Market Risk Committee is used as preliminary indicator of the general liquidity position of the Group. List of available limits, instruments and securities which can be used as a collateral to create liquidity in the event of a possible liquidity crises is updated weekly. Alternative funding strategies to be followed in case of a liquidity problem are evaluated within the current limits and positions to be taken are determined. Moreover, in terms of "Liquidity Emergency Action Plan" early warning signals, stress levels correlated with the level of liquidity risk and actions to be taken at each stress level are defined.

- Whether the payments, assets and liabilities match with the interest rates, and whether the effect of mismatch on profitability is measured, if any**

Group's payments, assets and liabilities match with the interest rates.

- Internal and external sources to meet the short and long-term liquidity needs, significant sources of liquidity that are not utilized**

In order to meet urgent liquidity needs 8 % (December 31, 2008 – 5 %) of the balance sheet is allocated as cash balances.

- Evaluation of the Bank's cash flows and their resources**

Cash flows of the Bank mainly consist of Turkish Lira, US Dollars and Euro.

k) Liquidation policies for uncollectible loans and other receivables:

For the unrecoverable non performing loans under legal follow up, the loan quality, collateral quality, bona fide of the debtor and assessment of the emergency of legal follow up are considered, before applying the best practice for unrecoverable non performing loans under legal follow up. The Parent Bank prefers to liquidate the risk through negotiations with the debtors. If this can not be possible, then the Parent Bank starts the legal procedures for the liquidation of the risk. Ongoing legal follow up procedures does not prevent negotiations with the debtors. An agreement is made with the debtor at all stage of the negotiations for the liquidation of the risk.

l) Explanations on write-off policy:

Unrecoverable non-performing loans in legal follow-up, for which 100% provision is provided in compliance with the "Provisioning Decree" and with no collateral that are deemed as uncollectible are written off by the Board of Directors' decision, in accordance with the laws and regulations.

The Parent Bank classified government bonds from trading portfolio and from available for sale portfolio to held to maturity portfolio with the fair values of TL 79,826 and TL 2,475,386, respectively, because of the volatility in the financial markets, in accordance with the amendment of Turkish Accounting Standards Board about Turkish Accounting Standards No: 39 Financial Instruments: Recognition and Measurement (TAS 39) published in the Official Gazette numbered 27040 dated October 31, 2008.

The intention of the Parent Bank regarding the holding of the held to maturity portfolio till the maturity has changed in 2009. As per TAS 39, paragraph 51, "while the intention or the possibility of holding the securities until the maturity changes, or when the investments become inappropriate to be classified as held to maturity; the related investments should be classified as investment securities available for sale and should be re-measured at their fair values"; the Bank classified TL 2,643,811 nominal amount of held to maturity portfolio to available for sale portfolio effective from March 31, 2009 based on the Board of Directors' decision dated April 16, 2009. Because of this classification the Bank will not be able to classify any financial asset as held to maturity investments in 2009 and the following two years.

As of March 31, 2009, the Group recorded current tax charge of TL 41,932 (March 31, 2008 TL 71,786) and a deferred tax benefit of TL 19,975 (March 31, 2008 – TL 3,666 deferred tax benefit). The details of the current tax charge are as follows:

	Current Period	Prior Period
Corporate Tax Provision	41,932	32,905 ^(**)
Adjustment to Prior Period Corporate Taxes	-	38,881 ^(*)
Total	41,932	71,786

^(*) The Parent Bank has applied for the settlement of the lawsuit filed against the tax authority by renouncing the total amount of TL 121,739 for the overpaid tax due to the fact that it was not allowed to deduct the losses incurred because of the inflation accounting application in 2001 calendar year from the corporate income base, in line with Article 3 of Tax Law No 5736. The application for the settlement of the previously filed lawsuit has been made to be able to use 65 percent of losses realized amounting to TL 363,733 due to inflation accounting as previous year losses and deduct the amount from the previous year corporate tax base. The tax amount of TL 38,881 paid to the tax authority due to the settlement has been accounted for under "current tax charge" in the accompanying financial statements at March 31, 2008.

^(**) The current tax charge amounting to TL 872 is also included.
