**INDEPENDENT AUDITOR'S LIMITED REVIEW REPORT,  
CONSOLIDATED FINANCIAL STATEMENTS, NOTES AND  
CONSOLIDATED INTERIM ACTIVITY REPORT AS OF  
AND FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2020**  
(Convenience translation of consolidated financial statements and independent  
auditor's review report originally issued in Turkish, See Note I. of Section three)

## **Interim Review Report on Consolidated Financial Information**

### **To the Board of Directors of QNB Finansbank Anonim Şirketi**

#### ***Introduction***

We have reviewed the consolidated balance sheet of QNB Finansbank A.Ş. (“the Bank”) and its subsidiaries (together will be referred as “the Group”) at June 30, 2020 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders’ equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of these consolidated interim financial information in accordance with the “Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Legislation” which includes the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 “Interim Financial Reporting” principles for those matters not regulated by the aforementioned legislations. Our responsibility is to express a conclusion on these consolidated interim financial information based on our review.

#### ***Scope of Review***

We conducted our review in accordance with the Standard on Review Engagements (ISRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards of Turkey and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

#### ***Conclusion***

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the financial position of QNB Finansbank A.Ş. and its consolidated subsidiaries at June 30, 2020 and of the results of its operations and its cash flows for the six months period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

***Report on Other Regulatory Requirements Arising from Legislation***

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VII, are not consistent with the consolidated financial statements and disclosures in all material respects.

***Additional paragraph for convenience translation to English:***

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 “Interim Financial Reporting” except for the matters regulated by BRSA Legislation., accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**SECTION ONE**

**GENERAL INFORMATION ABOUT THE PARENT BANK**

- I. Explanatory Note on the Establishment Date, Nature of Activities and History of the Parent Bank**  
QNB Finansbank Anonim Şirketi (The Parent Bank and/or the Bank) was incorporated in Istanbul on September 23, 1987. The Parent Bank’s shares have been listed on the Borsa Istanbul (“BIST”) formerly known as Istanbul Stock Exchange (“ISE”) since the first public offering on 1990.
- II. Information About the Parent Bank’s Shareholding Structure, Shareholders Who Individually or Jointly Have the Power to Control the Management and Audit Directly or Indirectly, Changes Regarding These Subjects During the Year, If Any, and Information About the Controlling Group of the Parent Bank**

A share sales agreement has been concluded between National Bank of Greece S.A. (NBG), principal shareholder of the Parent Bank in previous periods, and Qatar National Bank Q.P.S.C. (“QNB”) regarding the direct or indirect sales of NBG’s shares, owned by affiliates and current associations of the Parent Bank, at the rate of 99,81% to QNB at a price of EUR 2.750 million as of December 21, 2015. On April 7, 2016, BRSA permitted to transfer shares at ratios of 82,23%,7,90%,9,68% owned by National Bank of Greece S.A., NBGI Holdings B.V. and NBG Finance (Dollar) PLC respectively in the capital of the Bank to Qatar National Bank S.A.Q. in the framework of paragraph 1 of article 18 of Banking Law and dropping direct share of National Bank of Greece S.A. to 0% through the aforementioned share transfer. Necessary permissions related to share transfer have been completed on May 4, 2016 before the Competition Authority while permission transactions regarding direct/indirect share ownership which shall realize in related affiliates of the Bank (QNB Finans Yatırım Menkul Değerler A.Ş., QNB Finans Portföy Yönetimi A.Ş., QNB Finans Finansal Kiralama A.Ş. and Cigna Finans Emeklilik ve Hayat A.Ş.) before the related official bodies on May 12, 2016 and share transfer of the Bank has been completed on June 15, 2016.

The Parent Bank has decided to change the logo and the name of the company within the scope of the main shareholder change and brand strategies the new logo and the company name of the Parent Bank has started to be used as "QNB FİNANSBANK" as of October 20, 2016. According to the decision dated January 17, 2018 which was taken by the Board of Director; The Parent Bank’s trade name is changed from “FİNANS BANK A.Ş” to “QNB FİNANSBANK A.Ş” as of January 19, 2018.

99,88% of shares of Parent Bank are controlled by Qatar National Bank as of June 30, 2020 and remaining 0,12% of related shares are public shares.

50% of QNB shares, which is the first commercial bank of Qatar founded in 1964 and has been traded at Qatar Stock Exchange since 1997, are owned by Qatar Investment Authority while 50% of related shares are public shares. QNB is operating over 30 countries mainly in Middle East and North Africa Regions as well as being the biggest bank of Qatar. Also with respect to total assets, total credits and total deposits QNB is the biggest bank of Middle East and North Africa.

Other	4.108	0,12%	4.108	-

**V. Explanations on the Parent Bank's Services and Activities**

The Parent Bank's activities include trade finance and corporate banking, private and retail banking, SME banking, currency, money markets, securities operations and credit card operations. In addition, the Parent Bank carries out insurance agency activities on behalf of insurance companies through its branches. As of June 30, 2020, the Parent Bank operates through 513 domestic (December 31, 2019 - 523), 1 foreign (December 31, 2019 - 1) and 1 Atatürk Airport Free Trade Zone (December 31, 2019 - 1) branches. As of June 30, 2020, the Group has 12.341 employees (December 31, 2019 - 12.538 employees).

**(CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS AND RELATED DISCLOSURES AND FOOTNOTES ORIGINALLY ISSUED IN TURKISH)**

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**VI. Information on Application Differences Between Consolidation Practices as per the Regulation on Preparation of Consolidated Financial Statements of Banks and the Turkish Accounting Standards, and Entities Subject to Full or Proportional Consolidation or Deducted from Equity or Not Subject to Any of These Three Methods**

Parent Bank's joint venture Cigna Finans Emeklilik and Hayat Anonim Şirketi is consolidated using equity method as per the Regulation on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards.

Ibtech A.Ş and E-finans Elektronik Ticaret ve Bilişim Hizmetleri A.Ş. included in investments in associates and Bantaş Nakit ve Kıymetli Mal Taşıma ve Güvenlik Hizmetleri A.Ş. included in joint ventures are not consolidated to accompanying financial statements as per the Regulation on Preparation of Consolidated Financial Statements of Banks since they are nonfinancial investments. Bankalararası Kart Merkezi and Ulusal Derecelendirme A.Ş. included in subsidiaries is carried at cost and not consolidated since the Parent Bank does not have material control and presence over it.

All other subsidiaries are fully consolidated.

Bosphorus Financial Services Limited and İstanbul Bond Company S.A., which are not subsidiaries of the Parent Bank, but over which the Parent Bank has 100% controlling power due to the reason that these companies are "Structured Entity", have been included in the scope of consolidation.

**VII. Current or Likely Actual or Legal Barriers to Immediate Transfer of Shareholders' Equity or Repayment of Debts Between the Parent Bank and Its Subsidiaries**

None.

The accompanying notes are an integral part of these consolidated financial statements.

**SECTION THREE**  
**ACCOUNTING POLICIES**

**I. Basis of Presentation**

**1. Preparation of the consolidated financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents**

The Parent Bank prepared the accompanying consolidated financial statements regarding to the Banking Law No.5411 "Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents", dated November 1, 2006 which is published in the Official Gazette No: 26333, which refers to "Turkish Accounting Standards" ("TAS"), put into effect by Public Oversight Accounting and Auditing Standards Authority ("POA"), and "Turkish Financial Reporting Standards" ("TFRS") issued by the "Turkish Accounting Standards Board" ("TASB") and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all "Turkish Accounting Standards" or "TAS") published by the Banking Regulation and Supervision Agency ("BRSA") and in case where a specific regulation is not made by BRSA, the format and detail of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements". Consolidated financial statements and the related disclosures and footnotes have been presented in thousands of Turkish Lira unless otherwise specified. The amounts expressed in foreign currency, is indicated by the full amount.

**Explanation for Convenience Translation to English**

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in these consolidated financial statements. Accordingly, these consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

Consolidated financial statements and the related disclosures and footnotes have been presented in thousands of Turkish Lira unless otherwise specified. The amounts expressed in foreign currency, is indicated by the full amount.

**2. Accounting policies and valuation principles used in the preparation of the consolidated financial statements**

Accounting policies and valuation principles used in the preparation of the interim financial statements are determined and applied, in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency ("BRSA"), and are consistent with the accounting policies applied in the annual financial statements prepared for the year ended December 31, 2019.

The accounting policies and valuation principles related with current period are explained in Notes II to XXVII below.

Consolidated financial statements are prepared in TL accordance with the historical cost basis except for financial instruments measured at fair value through profit/loss, financial assets measured at fair value through other comprehensive income, derivative financial assets and liabilities. In addition, carrying value of assets subject to fair value hedge but are carried at historical cost is adjusted to reflect fair value changes related to risks being hedged.

The preparation of unconsolidated financial statements in conformity with TFRS requires the use of certain critical accounting estimates by the Parent Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent matters as of the balance sheet date. These estimates, which include the fair value calculations of financial instruments and impairments of financial assets are being reviewed regularly and, when necessary, suitable corrections are made, and the effects of these corrections are reflected to the income statement.

The ongoing COVID-19 pandemic, which has recently emerged in China, has spread to various countries in the world, causing potentially fatal respiratory infections, negatively affects both regional and global economic conditions, as well as it causes disruptions in operations, especially countries that are exposed to the epidemic. As a result of the spread of COVID-19 around the world, several measures have been taken in our country as well as in the world in order to prevent the spread of the virus and measures are still being taken. In addition to these measures, economic measures are also taken to minimize the economic impact of the virus outbreak on individuals and businesses in our country and worldwide.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

Since it is aimed to update the most recent financial information in the interim financial statements prepared as of June 30, 2020, considering the magnitude of the economic changes due to COVID-19, the Parent Bank made certain estimates in the calculation of expected credit losses and disclosed them in footnote numbered VIII “Explanations on Expected Provisions for Losses”. In the upcoming periods, the Parent Bank will update its relevant assumptions as necessary and revise the realizations of past estimates.

## **II. Strategy for the Use of Financial Instruments and the Foreign Currency Transactions**

### **1. Strategy for the use of financial instruments**

The major funding sources of the Parent Bank are customer deposits, bond issues and funds borrowed from international markets. The customer deposits bear fixed interest rate and have an average maturity of 1-3 months in line with the sector. Domestic bond issues are realized within the maturity of 6 months and foreign bond issues are based on long maturities with fixed interests. Funds borrowed from abroad mostly bear floating rates and are reprised at an average period of 3-6 months. The Parent Bank diverts its placements to assets with high return and sufficient collaterals. The Parent Bank manages the liquidity structure to meet its liabilities when due by diversifying the funding sources and keeping sufficient cash and cash equivalents. The maturity of fund sources and maturity and yield of placements are considered to the extent possible within the current market conditions and higher return on long-term placements is aimed.

Besides customer deposits, the Parent Bank funds its long-term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank converts the foreign currency liquidity obtained from the international markets to TL liquidity using long term swap transactions (fixed TL interest rate and floating FC interest rate). Thus, the Parent Bank generates TL denominated resources for funding long term loans with fixed interest rates.

The Parent Bank has determined securities portfolio limits based on the market risk limitations for money, capital and commodity markets. Products included in the securities portfolio are subject to position and risk limits. Position limits restrict the maximum nominal position based on the product. Risk limits are expressed in terms of “Value at Risk (VAR)” by taking the risk tolerance as a cap. The maximum VAR amounts are determined by interest and currency risk factors, which affect the securities portfolio that is subject to market risk, as well as determining the risk tolerance based on the total value at risk. The above-mentioned limits are revised annually.

The strategies for hedging exchange rate risk resulting from the Group’s foreign currency debt securities which are categorized as financial assets at fair value through other comprehensive income explained in foreign currency risk section and the applications regarding the cash flow hedging of interest rate cash flow risk resulting from deposits are explained in the Interest Rate Risk section in detail.

Hedging strategies for foreign exchange risk resulting from other foreign currency transactions are explained in the foreign currency risk section.

### **2. Foreign currency transactions**

#### **2.1. Foreign currency exchange rates used in converting transactions denominated in foreign currencies and presentation of them in the financial statements**

The Group accounts for the transactions denominated in foreign currencies in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”.

Foreign exchange gains and losses arising from transactions that are completed as of June 30, 2020 are translated to TL by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities except for non-monetary items are converted into TL by using foreign currency exchange rates of the Parent Bank for the period end and the resulting exchange differences are recorded as foreign exchange gains and losses. Foreign currency nonmonetary items measured at fair value are converted with currency exchange rates at the time of fair value measurement. The Parent Bank’s foreign currency exchange rates for the related period ends are as follows:

	<b><u>June 30, 2020</u></b>	<b><u>December 31, 2019</u></b>
US Dollar	TL 6,8422	TL 5,9402
Euro	TL 7,7082	TL 6,6506

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**2.2 Total exchange rate differences that are included in net profit or loss for the year**

The foreign currency position of the Parent Bank and the profit / loss from the foreign exchange transactions realized are included in the income statement of foreign exchange gains / losses and income/losses from derivative financial instruments in the income statement. While gain / loss from spot foreign exchange transactions are included in the profit / loss item of foreign exchange gain/loss on balance sheet, profit / loss from derivative transactions (forward, option etc.) for the purpose of hedging related transactions are included in income / loss statement of derivative financial instruments. Therefore, in order to determine the net profit / loss effects of foreign exchange transactions, two balances should be assessed together. As of June 30, 2020, net foreign exchange transaction income is TL 85.706 (June 30, 2019 - TL 271.129 net foreign exchange transaction income) when the net interest expense amounting to TL 1.230.700 (June 30, 2019- TL 565.963) arising from derivative transactions is excluded from the derivative transactions loss amounting to TL 1.392.799 (June 30, 2019- TL 135.180 derivative transactions loss) foreign exchange income amounting to TL 247.805 (June 30, 2019- TL 159.654 net foreign exchange loss).

**2.3. Foreign Associates**

None.

**III. Information on Associates, Subsidiaries and Entities Under Common Control**

The accompanying consolidated financial statements are prepared in accordance with TFRS 10 “Turkish Financial Reporting Standard in regards to Consolidated Financial Statements” and BRSA’s “Regulation on Preparation of Consolidated Financial Statements of Banks” published on the Official Gazette numbered 26340 and dated November 8, 2006.

The corporations included in consolidation and their places of incorporation, nature of activities and shareholding percentages are as follows:

	Consolidation Method	Place of Establishment	Subject of Operations	Effective Share of the Group (%)	
				June 30, 2020	December 31, 2019
1. QNB Finans Yatırım Menkul Değerler A.Ş. (Finans Yatırım)	Full consolidation	Turkey	Securities Intermediary Services	100,00	100,00
2. QNB Finans Portföy Yönetimi A.Ş. (Finans Portföy)	Full consolidation	Turkey	Portfolio Management	100,00	100,00
3. Hemenal Finansman A.Ş. (Tüketici Finansman)	Full consolidation	Turkey	Consumer Financing	100,00	100,00
4. QNB Finans Finansal Kiralama A.Ş. (Finans Leasing)	Full consolidation	Turkey	Financial Leasing	99,40	99,40
5. QNB Finans Faktoring A.Ş. (Finans Faktoring)	Full consolidation	Turkey	Factoring Services	100,00	100,00
6. QNB Finans Varlık Kiralama Şirketi A.Ş.	Full consolidation	Turkey	Asset Lease	100,00	100,00
7. Cigna Finans Emeklilik ve Hayat A.Ş. (Cigna Finans Emeklilik)	Equity Method	Turkey	Private Pension and Insurance	49,00	49,00

Subsidiaries maintain their books of accounts and prepare their financial statements in accordance with the regulations on accounting and reporting framework and accounting standards which are determined by the accounting standards promulgated by the Turkish Commercial Code, Financial Leasing Law and Turkish Capital Markets Board (“CMB”) regulations. Certain adjustments and reclassifications were made on the financial statements of the subsidiaries for the purpose of fair presentation in accordance with the prevailing regulations and accounting standards according to regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency (“BRSA”), and in case where a specific regulation is not made by BRSA, in accordance with Turkish Accounting Standards (“TFRS”) and Turkish Financial Reporting Standards (“TFRS”) and related additions and interpretations published by Public Accounting and Auditing Oversight Authority (“POA”).

Differences between the accounting policies of subsidiaries and entities under common control and those of the Parent Bank are adjusted, if material. The financial statements of the subsidiaries and entities under common control are prepared as of June 30, 2020.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**1. Subsidiaries**

Subsidiaries are the entities controlled directly or indirectly by the Parent Bank.

Control is defined as the power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Parent Bank's returns.

Subsidiaries are consolidated using the full consolidation method based on the size of their asset equity and result of operations. Financial statements of related subsidiaries are consolidated from the date when the control is transferred to the Parent Bank and are put out of consolidation's scope as soon as control is removed. Accounting policies applied by subsidiaries that are included in consolidated financial statements are not different from the Parent Bank's accounting policies.

According to full consolidation method, 100% of subsidiaries' asset, liability, income, expense and off-balance sheet items are consolidated with the Parent Bank's asset, liability, income, expense and off-balance sheet items. Book value of the Group's investment in each subsidiary is netted off with Group's equity shares. Unrealized gains and losses and balances that arise due to transactions between subsidiaries within consolidation scope, have been net off. Non-controlling interests are shown separately from earnings per share on consolidated balance sheet and income statement.

**2. Associates and entities under common control**

The Parent Bank does not have any financial associates that are consolidated in the accompanying financial statements.

The joint venture is established locally, has its primary operations in private pension and insurance, is controlled jointly with another group with a partnership agreement, and is included in Parent Bank's capital. Subject joint venture is included in consolidated financial statements by using equity method.

Equity method is a method of accounting whereby the book value of the investor's share capital in the subsidiary or the joint venture is either added to or subtracted in proportion with investor's share from the change in the subsidiary's or joint venture's equity within the period. The method also foresees that profit will be deducted from the subsidiary's or joint venture's accordingly recalculated value.

**IV. Explanations on Derivative Financial Assets and Liabilities**

The Group enters into forward currency purchase/sale agreements and swap transactions to reduce the foreign currency risk and interest rate risk and manage foreign currency liquidity risk. The Group also carries out currency and interest options and credit default swap and futures agreements.

Besides customer deposits, the Parent Bank funds its long-term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank converts the foreign currency liquidity obtained from customer deposits and the international markets to TL liquidity with long term swap transactions (fixed TL interest rate and floating FC interest rate). Therefore, the Parent Bank not only funds its long-term fixed interest rate loans with TL but also hedges itself against interest rate risk.

The Parent Bank's derivative instruments held for trading and derivative instruments hedging purpose are classified, measured and accounted in accordance with "IFRS 9" and TAS 39 "Financial Instruments: Recognition and Measurement", respectively. Derivative instruments held for trading and derivative instruments hedging purpose are initially recognized at fair value and subsequently measured at fair value. Also, the liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual values. The derivative transactions are accounted for at fair value subsequent to initial recognition and are presented in the "Derivative Financial Assets at Fair Value Through Profit/Loss", "Derivative Financial Liabilities at Fair Value Through Profit & Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income" and "Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income" items of the balance sheet depending on the resulting positive or negative amounts of the computed value. These amounts of derivative transactions presented on the balance sheet, represent the fair value differences based on the valuation.

Fair values of foreign currency purchase and sales contracts, currency and interest rate swap transactions are calculated by using internal pricing models based on market data.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

Fair values of option contracts are calculated with option pricing models.

Futures transactions are accounted for at settlement as of the balance sheet date.

The Parent Bank does not have either any hybrid contract contains a host that is not an asset within the scope of this standard or a financial instrument which shall be separated from the host and accounted for as derivative under this standard.

Credit derivatives are capital market tools designed to transfer credit risk from one party to another. The Parent Bank's credit derivatives portfolio included in the off-balance sheet accounts composes of credit default swaps resulted from protection buying or selling.

Credit default swap is a contract, in which the protection seller commits to pay the protection value to the protection buyer in case of certain credit risk events in return for the premium paid by the buyer for the contract. Credit default swaps are valued daily at their fair values.

Upon valuation of derivative instruments that are not subject to hedge accounting, differences in fair value, except for currency revaluation differences, are recorded in the income statement on Gains/Losses from Derivative transactions. These foreign currency valuation differences are accounted for under "Foreign Exchange Gains/Losses" account.

In cash flow hedge accounting:

The Parent Bank applies cash flow hedge accounting using interest swap transactions to hedge its TL and FC customer deposits with short term cyclical basis and subordinated loans which have floating interest payment. The Parent Bank implements effectiveness tests at the balance sheet dates for hedge accounting; the effective parts are accounted as defined in TAS 39, in financial statements under equity "Other Comprehensive Income/Expense Items to be Recycled to Profit or Loss" whereas the amount concerning ineffective parts is associated with income statement.

QNB Finans Finansal Kiralama AŞ., the subsidiary of the Parent Bank, applies cash flow hedge accounting through interest rate swaps to hedge itself against changes floating rate foreign currency borrowings and floating rates TL securities.

In cash flow hedge accounting, when the hedging instrument expires, is executed or sold and when the hedge relationship becomes ineffective or is discontinued as a result of the hedge relationship being revoked; the hedging gains and losses that were previously recognized under equity are transferred to profit or loss when the cash flows of the hedged item are realized.

In fair value hedge accounting:

The Parent Bank applies fair value hedge accounting within the framework of TAS 39 using swaps to hedge a portion of its long term, fixed rate mortgage and project finance loans against possible fair value change due to market interest rate fluctuations.

The Parent Bank applies fair value hedge accounting using FX swaps to hedge long term, fixed rate, foreign currency Eurobonds in financial assets measured at fair value through other comprehensive income portfolio against interest rate fluctuations.

The Parent Bank applies fair value hedge accounting to hedge itself against the changes in the interest rates related to long term TL government bonds with fixed coupon payment in financial assets measured at fair value through other comprehensive income portfolio using swap transactions as hedging instruments.

The Parent Bank applies fair value hedge accounting to hedge itself against the changes in the interest rates related to the foreign currency bonds issued using interest rate swap transactions as hedging instruments.

QNB Finans Finansal Kiralama AŞ., the subsidiary of the Parent Bank, applies fair value hedge accounting to hedge itself against changes in interest rates related to fixed rate TL securities issued.

The Parent Bank applies fair value hedge accounting through interest rate swaps to hedge itself against changes in the interest rates related to foreign currency borrowings.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

QNB Finans Finansal Kiralama AŞ., the subsidiary of the Parent Bank, applies fair value hedge accounting through interest rate swaps to hedge itself against changes in interest rates related to TL borrowings.

QNB Finans Finansal Kiralama A.Ş., the subsidiary of the Parent Bank issues securities, uses loan and financial through swaps, in order to hedge itself against changes in interest and exchange rates regarding lease receivables.

Fair value hedge accounting effects are accounted under “Derivative Financial Transactions Profit / Loss from Derivative Financial Transactions” in the statement of profit or loss. QNB Finans Finansal Kiralama A.Ş., the subsidiary, conducts efficiency tests on every balance sheet date for transactions where fair value hedge accounting is applied.

QNB Finans Finansal Kiralama A.Ş., the subsidiary, conducts cash flow hedge accounting transactions effectiveness tests on every balance sheet date, the active segments are as defined in TAS 39 accounted in line with under Equity, “Reclassification of Accumulated Other Comprehensive Income and Expense in Profit or Loss” in financial statements and the amount related to the inactive part is associated with income statement.

At each balance sheet date, the Parent Bank and QNB Finans Finansal Kiralama AŞ., the subsidiary of the Parent Bank, apply effectiveness tests for fair value hedge accounting.

When the hedging instrument expires, is executed or sold and when the hedge relationship becomes ineffective or is discontinued as a result of the hedge relationship being revoked, adjustments made to the carrying amount of the hedged item are transferred to profit and loss with straight line method for portfolio hedges or with effective interest rate method for micro hedges. In case the hedged item is derecognized, hedge accounting is discontinued and within context of fair value hedge accounting, adjustments made to the value of the hedged item are accounted in income statement.

#### **V. Explanations on Interest Income and Expenses**

Interest income is recorded according to the effective interest rate method (Rate equal to net present value of future cash flows of financial assets or liabilities) defined in the TFRS 9 “Financial Instruments” standard by applying the effective interest rate to the gross carrying amount of a financial asset except for: purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. When applying the effective interest rate method, an entity identifies fees that are an integral part of the effective interest rate of a financial instrument. Fees that are an integral part of the effective interest rate of a financial instrument are treated as an adjustment to the effective interest rate, unless the financial instrument is measured at fair value, with the change in fair value being recognized in profit or loss.

When applying the effective interest method, The Parent Bank amortized any fees, transaction costs and other premiums or discounts that are included in the calculation of the effective interest rate over the expected life of the financial instrument. In case an interest was accrued on a security before its acquisition, the collected interest is divided into two parts as interest before and after the acquisition and only the interest of the period after the acquisition is recorded as interest income in the financial statements. If the expectation for the cash flows from financial asset is revised for reasons other than the credit risk, the change is reflected in the carrying amount of asset and in the related statement of profit or loss line and is amortized over the estimated life of financial asset.

If the financial asset is impaired and classified as a non-performing receivable, the Parent Bank applies the effective interest rate on the amortized cost of the asset for subsequent reporting periods. Such interest income calculation is made on an individual contract basis for all financial assets subject to impairment calculation. It is used effective interest rate during calculation of loss given default rate in expected credit loss models and accordingly, the calculation of expected credit losses includes an interest amount. Therefore, a reclassification is made between the accounts of “Expected Credit Losses” and “Interest Income From Loans” for such calculated amount.

#### **VI. Explanations on Fees and Commission Income and Expenses**

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period. The income derived from agreements or asset purchases from real-person or corporate third parties are recognized as income when realized.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**VII. Explanations and Disclosures on Financial Instruments**

**Initial recognition of financial instruments**

The Parent Bank shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. A regular way purchase or sale of financial assets shall be recognized and derecognized, as applicable, using trade date accounting or settlement date accounting. Purchase and sale transactions of securities are accounted at the settlement date.

**Initial measurement of financial instruments**

The classification of financial instruments at initial recognition depends on the contractual conditions and the relevant business model. Except for the assets in the scope of TFRS 15 Revenue from contracts with customers, at initial recognition, the Parent Bank measures financial asset or financial liabilities at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit/loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

**Classification of financial instruments**

On which category a financial instrument shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

As per TFRS 9, the Parent Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In order to assess whether the element provides consideration for only the passage of time, an entity applies judgement and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss. The Parent Bank tested all financial assets whether their “contractual cash-flows solely represent payments of principal and interest” and assessed the asset classification within the business model.

**Assessment of business model**

As per TFRS 9, the Parent Bank’s business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The Parent Bank’s business models are divided into three categories.

**Business model aimed to hold assets in order to collect contractual cash flows:**

This is a model whose objective is to hold assets in order to collect contractual cash flows are managed to realize cash flows by collecting contractual payments over the life of the instrument. The financial assets that are held within the scope of this business model are measured at amortized cost when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Receivables from the Central Bank, Banks, Money Market Placements, investments under financial assets measured at amortized cost, loans, leasing receivables, factoring receivables and other receivables are assessed within this business model.

**Business model aimed to collect contractual cash flows and sell financial assets:**

This is a model whose objective is achieved by both collecting contractual cash flows and selling financial assets: the Parent Bank may hold financial assets in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Fair value change of the financial assets that are held within the scope of this business model are accounted under other comprehensive income when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial Assets Measured at Fair Value through Other Comprehensive Income are assessed in this business model.

**Other business models:**

Financial assets are measured at fair value through profit or loss when they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Financial assets measured at fair value through profit/loss are assessed in this business model.

**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**Measurement categories of financial assets and liabilities**

Within the scope of TFRS 9, the Group's financial assets are classified in three main categories as listed below:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income and
- Financial assets measured at amortized cost

**Financial Assets at the Fair Value Through Profit or Loss:**

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and measured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. According to uniform chart of accounts explanations interest income earned on financial asset and the difference between their acquisition costs and amortized costs are recorded as interest income in the statement of profit or loss. The differences between the amortized costs and the fair values of such assets are recorded under trading account income/losses in the statement of profit or loss. In cases where such assets are sold before their maturities, the gains/losses on such sales are recorded under trading account income/losses.

The Parent Bank has stocks, bills and bonds in portfolios of financial assets at fair value through profit and loss that are accounted in accordance with the Group's business model. In accordance with TFRS 9, the Parent Bank has classified cash flows are solely payments of principal and interest at certain dates under financial assets at fair value through profit and loss related to private purpose loans as of December 2018.

**Financial Assets at Fair Value Through Other Comprehensive Income:**

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income. Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are measured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement.

“Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and are accounted under the “Other comprehensive income/expense items to be recycled to profit/loss” under shareholders' equity. Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

Parent Bank has inflation indexed (CPI) government bonds in its financial assets at fair value through other comprehensive income and measured at amortized cost portfolios.

CPI government bonds that are constant throughout their lives and their real principal amounts are preserved from inflation. These marketable securities are valued and accounted by using effective interest rate method by considering the real coupon rates and reference inflation index at the issue date together with the index calculated by considering the estimated inflation rate as disclosed by the Turkish Treasury. As disclosed in 'Inflation Indexed Bonds Manual' published by Turkish Treasury, reference index used for the real payments is determined based on the inflation rates of two months before. The estimated inflation rate used is updated during the year when necessary.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

Some portion of the Eurobond portfolio which has been recognized as financial assets at fair value through other comprehensive income are designated as fair value hedged items, hedged against interest rate fluctuations, starting from March and April 2009, and some portion of the TL government bonds are designated as fair value hedged items, hedged against interest rate fluctuations, starting from July 2011. Those securities are disclosed under financial assets at FV through OCI in order to be in line with balance sheet presentation. The fair value differences of Eurobond and TL government bond hedged items are accounted for under “Trading Account Gains/ Losses” in the income statement.

In cases where fair value hedge operations cannot be effectively performed as described in TAS 39, fair value hedge accounting is ceased. After fair value accounting is ceased value differences, previously reflected to the income statement are amortized through the equity until the maturity of related hedged securities. The fair value differences of related portfolio securities sold prior to maturity are immediately recognized in the income statement.

**Financial Assets Measured at Amortized Cost:**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

The Parent Bank as explained in part IV, “Explanations on Derivative Financial Assets and Liabilities”, enters into FX swap transactions against TL in order to hedge the possible losses which might arise due to the changes in the fair value of a certain portion of its long-term loans and applies fair value hedge accounting as per TAS 39. The Parent Bank accounts for the hedged loan portfolio at fair value related to hedged risk, the swap transactions used as the hedging instrument at fair value and reflects the related net gain or loss to respective period’s income statement.

When the fair value hedge accounting could not be effectively continued as stated in TAS 39, the fair value hedge accounting is ceased. The fair value differences of the hedged loans are amortized through income statement until the maturity of the hedged loans.

**VIII. Explanations on Expected Credit Losses:**

The Group recognizes a loss allowance for expected credit losses on financial assets and loans measured at amortized cost, financial assets measured at fair value through other comprehensive income, loan commitments and financial guarantee contracts not measured at fair value through profit/loss based on TFRS 9 and the regulation published in the Official Gazette no. 29750 dated 22 June 2016 in connection with “Procedures and Principals regarding Classification of Loans and Allowances Allocated for Such Loans” effective from January 1, 2018. At each reporting date, the Group shall assess whether the credit risk on a financial instrument has increased significantly since initial recognition. The Group considers the changes in the default risk of financial instrument, when making the assessment.

Within the scope Articles 4 and 5 of Regulation on Principles and Procedures Regarding the Classification of Loans and Provisions in accordance with the BRSA Decision numbered 8948 dated 17 March 2020, due to the disruptions in economic and commercial activities resulting from the Covid-19 outbreak, the 90 days default period for loans to be classified as non-performing loans shall be applied as 180 days according to assembly’s resolution dated on March 17, 2020. This measure will be effective until December 31, 2020. In this manner, In the assessment of whether the debtor defaulted on the loan where the payment is overdue for more than 90 days, consideration is given to whether the debtor’s condition is temporary due to COVID-19 pandemic and payment irregularities are related to temporary liquidity constraints In this context,

- The 90 days default period for loans to be classified as non-performing loans (NPL) is now 180 days
- In restructured installment receivables, the practice of shifting installments without a contract breakdown, within the defined terms has started for customers who do not want to be late in their installments.
- In the process of completing the Pro-rata banks protocols, the time to be given to time-consuming operations was extended by a joint agreement.
- Terminatively, this leads the Banks to continue to set aside provisions for such receivables in accordance with their own risk models used in calculation of expected credit losses under TFRS 9.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

As of June 30, 2020, the Group has not made any changes related to classification, measurement and calculation of expected credit losses of financial assets coherent to accounting policies of year-end financial statements dated December 31, 2019.

The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions. These financial assets are divided into three categories depending on increase in credit risk observed since their initial recognition:

**Stage 1:**

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of expected credit losses on the 12-month default risk. It is calculated 12-month expected credit loss based on a probability of default realized within 12 months after the reporting date. Such expected 12-month probability of default is applied on an expected exposure at default, multiplied with loss given default rate and discounted with the original effective interest rate. As of June 30, 2020, minimum probability of default rate of Basel II is used in the expected credit loss calculation of receivables from public institutions and organizations. Such calculation is performed for each of three scenarios explained above.

**Stage 2:**

As of the reporting date of the financial asset, in the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument's lifetime expected credit losses. Calculation approach is quite similar with approach mentioned above, but probability of default and loss amount in default ratios estimated for the lifetime of instruments.

**Stage 3:**

Financial assets considered as impaired at the reporting date are classified as stage 3. The probability of default is taken into account as 100% in the calculation of impairment provision and Parent Bank accounts lifetime expected credit losses. In determining the impairment, the Parent Bank takes into consideration the following criteria:

- Delay of over 90 days
- Impairment of credit worthiness
- Collateral and / or equity of debtor is inadequate cover the payment of receivables on the maturity.
- If it is convinced that will be delayed by more than 90 days for recovery of receivables due to macroeconomic, sector-specific or customer-specific reasons.

**Calculation of expected credit losses**

The Parent Bank measured expected credit losses with the reasonable, objective and supportable information based on a probability-weighted including estimations about time value of money, past events, current conditions and future economic conditions as of the reporting date, without undue cost or effort. The calculation of expected credit losses consists of three main parameters: probability of default (PD), loss given default (LGD) and exposure at default (EAD). PDs and LGDs used in the ECL calculation are point in time ("PIT")-based for key portfolios and consider both current conditions and expected cyclical changes.

While the expected credit loss is estimated, three scenarios (internal base, internal bad, BRSA adverse) are evaluated. Each of these scenarios was associated with the different PD and LGD.

In addition, a certain portion of commercial and corporate loans is assessed individually in accordance with the internal policies in the calculation of the expected credit losses based on TFRS 9. Such calculations are made by discounting the expected cash flows from the individual financial instrument to its present value using the effective interest rate.

When measuring expected credit losses, it shall be considered the risk or probability that a credit loss occurs by reflecting the possibility that a credit loss occurs and the possibility that no credit loss occurs, even if the possibility of a credit loss occurring is very low. Such assessment is made by reflecting the estimate of expected credit loss which is unbiased and probability-weighted determined by evaluating a range of possible outcomes.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**Probability of Default (“PD”)**

The PD represents the likelihood of a default over a specified time period. A 12-month PD represents the likelihood of default determined for the next 12 months and a lifetime PD represents the probability of default over the remaining lifetime of the instrument. The lifetime PD calculation is based on a series of 12-month PIT PDs that are derived from through the cycle (TTC) PDs and scenario forecasts. It is used internal rating systems for both retail and commercial portfolios to measure risk level. The internal rating models used for the commercial portfolio include customer financial information and qualitative survey responses. Whereas behavioral and application scorecards used in the retail portfolio include; the behavioral data of the customer and the product in the Bank, the demographic information of the customer, and the behavioral data of the customer in the sector. Probability of default calculation has been carried out based on past information, current conditions and forward-looking macroeconomic parameters.

**Loss Given Default (“LGD”)**

The LGD represents an estimate of the economic loss at the time of a potential default occurring during the life of a financial instrument. The LGD is calculated taking into account expected future cash flows from collateral and other credit enhancements by considering time value of money. LGD calculations are performed using historical data which best reflects current conditions, by formation of segments based on certain risk factors that are deemed important for each portfolio and inclusion of forward-looking information and macroeconomic expectations. LGD summarizes all cash flows from customers subsequent to default. It covers all costs and collections that occur during the collection cycle, including collections from collaterals. It also includes the "time value of money" calculated by means of deducting costs and additional losses from the present value of collections. The Bank bases its estimates on models for collateralized portfolios and on previous experience for unsecured parties, except for corporate loans that are assigned by the Basel Committee individually or as designated by the Basel Committee.

**Exposure at Default (“EAD”)**

The EAD represents an estimate of the exposure to credit risk at the time of a potential default occurring during the life of a financial instrument. It represents the cash flows outstanding at the time of default, considering expected repayments, interest payments and accruals, discounted at the effective interest rate. Future drawdowns on facilities are considered through a credit conversion factor (CCF) that is reflective of historical drawdown and default patterns and the characteristics of the respective portfolios. While the expected credit loss is estimated, three scenarios (internal base, internal bad, BRSA adverse) are evaluated. Each of these scenarios was associated with the probability of different default and loss in default.

**Consideration of the Macroeconomic Factors**

Loss given default and probability of default parameters are determined by considering macroeconomic factors. The macroeconomic variables used in the calculation of the expected loss are as follows:

- Five-year credit risk of Turkey
- Real GDP growth
- Unemployment rate
- European Region inflation rate
- Five-year government bond interest rate of Turkey

Stages were determined through the models created using internal information for the Parent Bank, the simplified method has been applied for other financial institutions.

Stages were determined through the models created using internal information for the Parent Bank and QNB Finans Kiralama A.Ş., the simplified method has been applied for other financial institutions.

As of June 30, 2020, the Group Bank has reflected the possible effects of the COVID-19 outbreak to the estimates and judgments used in the calculation of expected credit losses by using the data that is received with the maximum effort with the best estimation method. Within the light of the aforementioned data, the Group Bank revised its macroeconomic expectations and weights in the expected credit loss calculation and the calculation which is made by taking into consideration the changes in PD and LGD is reflected in the financial statements as of June 30, 2020. The model effects are tardily reflected to the financial statements due to the nature of the events that cause change and the effects of the events occur at different times. Therefore, the Group Bank has booked additional provisions for the sector and customers who are considered to have a high impact by performing individual assessments to eliminate the timing difference.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

This approach, which is preferred in reserve calculations for the second quarter of 2020, will be revised in the following reporting periods, taking into account the impact of the pandemic, portfolio and future expectations.

As of June 30 , 2020, the normal risk cost of the loan portfolio purged from the COVID-19 effect was at 99 basis point, yet, in order to reflect the uncertainty originated from the Covid-19 to the financial asset portfolio of the Parent Bank, the total risk cost has reached to 221 basis points in corporate into the effects arising from the aforementioned estimation changes, increase in the Stage 2 reserve ratios and additional exchange rate.

**Calculating the Expected Loss Period**

Lifetime ECL is calculated by taking into account maturity extensions, repayment options and the period during which the Parent Bank will be exposed to credit risk. The time in financial guarantees and other irrevocable commitments represents the credit maturity for which the liabilities of the Parent Bank. Behavioral maturity analysis has been performed on credit cards and overdraft accounts. With the exception of credit cards and other revolving facilities, the maximum period for which the credit losses are determined is the contractual life of a financial instrument unless there is the legal right to call it earlier.

**Significant increase in credit risk**

The Parent Bank makes qualitative and quantitative assessments regarding assessment of significant increase in credit risk of financial assets to be classified as stage 2 (Significant Increase in Credit Risk).

Within the scope of quantitative assessment, the quantitative reason explaining the significant increase in the credit risk is based on a comparison of the probability of default calculated at the origination of the loan and the probability of default assigned for the same loan as of the reporting date. If there is a significant deterioration in PD, it is considered that there is a significant increase in credit risk and the financial asset is classified as stage 2. In this context, the Parent Bank has calculated thresholds at which point the relative change is a significant deterioration. In the quantitative evaluation of the significant increase in credit risk, the Bank considers the absolute thresholds as well as the relative thresholds as an additional layer. Receivables below the absolute threshold value of default are not included in the relative threshold value comparison.

The Parent Bank classifies the financial asset as Stage 2 (Significant Increase in Credit Risk) where any of the following conditions are satisfied as a result of a qualitative assessment:

- Loans overdue more than 30 days as of the reporting date
- Loans classified as watch-list of the Bank
- When there is a change in the payment plan due to restructuring

**IX. Explanations on Netting of Financial Instruments**

Financial assets and liabilities are offset and the net amount is reported on the balance sheet when the Group has a legally enforceable right to offset the recognized amounts, and the intention of collecting or paying the net amount of related assets and liabilities or to realize the asset and settle the liability simultaneously.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**X. Derecognition of Financial Instruments**

**a) Derecognition of financial assets due to change in contractual terms**

Based on TFRS 9, the renegotiation or modification of the contractual cash flows of a financial asset could lead to the derecognition of the existing financial asset. When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of the modified financial asset, the modified asset is considered as 'new' financial asset. When the Parent Bank assesses the characteristics of the new contractual terms of the financial asset, it evaluates the contractual cash flows including foreign currency rate changes, conversion to equity, counterparty changes and solely principal and interest on principle. When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, it is recalculated the gross carrying amount of the financial asset and recognized a modification gain or loss in profit or loss.

Where all risks and rewards of ownership of the asset have not been transferred to another party and the Parent Bank retains control of the asset, the Parent Bank continues to recognize the remaining portion of the asset and liabilities arising from such asset. When the Parent Bank retains substantially all the risks and rewards of ownership of the transferred asset, the transferred asset continues to be recognized in its entirety and the consideration received is recognized as a liability.

**b) Derecognition of financial assets without any change in contractual terms**

The Parent Bank derecognizes the asset if the contractual rights to cash flows from the financial asset are expired or the related financial asset and all risks and rewards of ownership of the asset are transferred to another party. Except for equity instruments measured at fair value through other comprehensive income, the total amount consisting of the gain or loss arising from the difference between the book value and the amount obtained and any accumulated gain directly accounted in equity shall be recognized in profit/loss.

**c) Derecognition of financial liabilities**

It shall be removed a financial liability (or a part of a financial liability) from the statement of financial position when, and only when, it is extinguished—i.e. when the obligation specified in the contract is discharged or cancelled or expires.

**d) Reclassification of financial instruments**

Based on TFRS 9, it shall be reclassified all affected financial assets at amortized cost to financial assets measured at fair value through other comprehensive income and fair value through profit or loss in the subsequent accounting when, and only when, it is changed the business model for managing financial assets.

**e) Restructuring and refinancing of financial instruments**

The Parent Bank can change the original contractual terms of a loan (maturity, repayment structure, guarantees and securities) which were previously signed, in case the loan cannot be repaid or if a potential payment difficulty is encountered based on the new financing power and structure of the borrower.

Restructuring is made for changing the financial terms of existing loans in order to facilitate the payment of debt. Refinancing is granting a new loan which will cover either the principal or the interest payment in whole or in part of one or a few existing loans due to the anticipated financial difficulty which the customer or group encounter currently or will encounter in the future.

Changes in the original terms of a credit risk can be made in the current contract or through a new contract. Corporate and commercial companies which have been restructured and refinanced can be removed from watchlist when the following conditions are met:

- Subsequent to the thorough review of company's financial data and its owners' equity position, at circumstances when it is not anticipated that the owner of the company will face financial difficulties; and it is assessed the restructured debt will be paid on time (starting from the date when the debt is restructured all due principal and interest payments are made on time); and

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

- At least 1 years should pass over the date of restructuring (or if it later) the date of removal from non-performing loan category, at least 10% (or the ratio specified in the legislation) of the total principal amount at the time restructuring / refinancing shall be paid.

On order to the restructured non-performing corporate and commercial loans to be classified to the watchlist category, the following conditions must be met:

- Recovery in debt service;

- At least 1 year should pass over the date restructuring;

- Payment of all accrued and overdue amounts by debtor (interest and principal) since the date of restructuring / refinancing or the date when the debtor is classified as non-performing (earlier date to be considered) and fulfillment of the payment condition of all overdue amounts as of the date of restructuring / refinancing; and

- Collection of all overdue amounts, disappearance of the reasons for classification as nonperforming receivable (based on the conditions mentioned above) and having no overdue more than 30 days as of the date of reclassification.

During the follow-up period of at least two years following the date of restructuring / refinancing, if there is a new restructuring / refinancing or a delay of more than 30 days, the transactions which were non-performing at the beginning of the follow-up period are classified as non-performing loans gain. The performing or non-performing retail loans being subject to restructuring shall be removed from watchlist only if the debt is paid in full.

In personnel loans, loans can be restructured in order to give liquidity power to the debtor and to ensure the collection of the receivables of the Parent Bank in case of temporary liquidity problems due to the failure of the payment obligation to the Parent Bank. The Parent Bank removing customers from the restructuring scope in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables (the Provisioning Regulation).

**XI. Explanations on Sales and Repurchase Agreements and Lending of Securities**

Securities sold under repurchase agreements are recorded on the balance in accordance with Uniform Chart of Accounts. Accordingly, government bonds and treasury bills sold to customers under repurchase agreements are classified as “Investments Subject to Repurchase Agreements” and valued based on the Group’s management’s future intentions, either at market prices or using discounting method with internal rate of return.

Funds lent against securities purchased under agreements to resell (“Reverse repos”) are accounted under “Receivables from reverse repurchase agreements” on the balance sheet. The difference between the purchase and resell price determined by these repurchase agreements is accrued over the life of repurchase agreements using the “Effective interest method”.

Securities that are subject to repurchase agreements as at the balance sheet date amounted to TL 15.549.567 (December 31, 2019– TL 11.992.093).

As of June 30, 2020, the Parent Bank has no securities that are subject to lending transactions (December 31, 2019 – none).

Securities purchased with a commitment to resell (reverse repurchase agreements) has shown under “Cash and Cash Equivalents” on the line of “Money Market Placements” in the balance sheet. The difference resulting from purchase and resale prices is treated as interest income and accrued over the life of the agreement.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**XII. Explanations on Assets Held for Sale and Discontinued Operations**

In accordance with TFRS 5 (“Assets Held for Sale and Discontinued Operations”), assets classified as held for sale are measured at lower of carrying value or fair value less costs to sell. Amortization on subject asset is ended and these assets are presented separately on financial statements. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset (or a disposal group) should be actively marketed at a price consistent with its fair value. Various events and conditions may prolong the sale procedures for more than one year. In case subject delay is caused by the events and conditions beyond the bank’s control and there is enough evidence that plans to sell subject asset (or a disposal group) continue subject assets continue to be classified as assets held for sale. As of June 30, 2020, the Parent Bank has assets held for sale and discontinued operations explained in footnote I.15. of Section Five.

A discontinued operation is a part of the Parent Banks’ business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement. The Parent Bank has no discontinuing operations.

The Parent Bank classifies tangible assets which are acquired due to non-performing receivables as other assets.

**XIII. Explanations on Goodwill and Other Intangible Assets**

The Group’s intangible assets consist of software, intangible rights and goodwill.

The intangible assets are recorded at their historical cost less accumulated amortization and provision for impairment, if any. Amortization is calculated on a straight-line basis. Software’s have been classified as other intangible fixed assets. The useful life of software’s is determined as 3-5 years.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the Turkish Accounting Standard on Impairment of Assets (TAS 36) and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

**XIV. Explanations on Tangible Assets**

Tangible assets are recorded at their historical cost less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of tangible assets. The annual amortization rates used are as follows:

Properties	2%
Movables purchased and acquired under finance lease contracts	7 % – 25%

The depreciation of leasehold improvements acquired before December 2009, under operating lease agreements, is calculated according to their useful lives. Depreciation of the leasehold improvements acquired after this date is calculated over the lease period not exceeding 5 years where the lease duration is certain; or 5 years where the lease period is not certain in accordance with “Communiqué on the Amendment of Communiqué on Uniform Chart of Accounts and Explanatory Notes” dated January 10, 2011.

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than a year as of the balance sheet date.

Net book value of the property and leased assets under financial lease contracts are compared with the fair values determined by independent appraisers as of the year end and provision for impairment is recognized in “Other Operating Expenses” in the related period income statement when the fair value is below the net book value in accordance with “Turkish Accounting Standard on Impairment of Assets” (TAS 36).

Gains or losses resulting from disposals of the tangible assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; otherwise, they are expensed.

There are no changes in the accounting estimates in regard to amortization duration, which could have a significant impact on the current and future financial statements. There are no pledges, mortgages or other restrictions on the tangible assets. There are no purchase commitments related to the fixed assets.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**XV. Explanations on Leasing Transactions**

Fixed assets acquired under finance lease contracts are presented under “Tangible Fixed Assets” on the asset side and under “Financial Lease Payables” on the liability side at the initial date of the lease. The basis for the determination of related balance sheet amounts is the lower of fair value of the leased asset and the present value of the lease payments. The direct costs incurred for a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period. Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets at the rate of 20% except for the buildings which are depreciated at the rate of 2%.

At the commencement date of a lease, the Group (lessee) measures the lease liability at the present value of the lease payments that are not paid at that date (i.e., the lease liability), at the same date recognizes an asset representing the right to use the underlying asset and depreciates it during the lease term. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee’s incremental borrowing rate. Lessees are required to recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset separately.

**IFRS 16 Leases**

IFRS 16 Leasing standard abolishes the dual accounting model currently applied for lessees through recognizing finance leases in the balance sheet whereas not recognizing operational lease. Instead, it is set forth a single model similar to the accounting of financial leases (on balance sheet). For lessors, the accounting stays almost the same. The Group has started to apply “IFRS 16 Leases” Standard starting from January 1, 2019.

Set out below are the accounting policies of the Group upon application of IFRS 16:

**Right of use assets**

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

The right use includes the presence of:

- The initial measurement of the lease,
- The amount obtained by deducting all lease payments received from all lease payments made on or on the date of actual lease; and
- All initial direct costs incurred by the Group

At the end of the lease term of the underlying asset's service, the transfer of the Group is reasonably finalized, and the Group depreciates the asset until the end of the life of the underlying asset on which the lease actually began. Right-of-use assets are subject to impairment.

**Lease Liabilities**

The Group measures the lease obligation at the present value of the unpaid lease payments on the date that the lease commences.

Lease payments included in the measurement of the lease obligation on the date that the lease actually commences, consists of the following payments to be made for the right of use of the underlying asset during the lease period and not paid on the date the lease actually starts:

- Fixed payments,
- Variable lease payments based on an index or rate, the first measurement made using an index or rate on the actual date of the lease.
- Amounts expected to be paid by the Group under the residual value commitments

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

- The use price of this option and, if the Group is reasonably confident that it will use the purchase option;
- Fines for termination of the lease if the lease term indicates that the Group will use an option to terminate the lease.

Variable lease payments that do not depend on an index or rate are recognized as an expense in the period in which the event or condition that triggered the payment occurred. The Group revises the revised discount rate for the remainder of the lease term, if the implicit interest rate in the lease can be easily determined; the Group's alternative borrowing interest rate at the date of the revaluation.

After the effective date of the lease, the Group measures the lease obligation as follows:

- Increase the carrying amount to reflect the interest on the lease obligation; and
- Decreases the carrying amount to reflect the lease payments made.

In addition, in the event of a change in the lease term, in essence a change in fixed lease payments or a change in the assessment of the option to buy the underlying asset, the value of the lease obligations is remeasured.

#### **Short-Term Leases And Leases Of Low-Value Assets**

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

On 5 June 2020, the POA made amendments to TFRS 16 "Leases" standard by publishing "Concessions Regarding COVID-19" on Lease Payments - "TFRS 16 Leases". With this change, tenants were granted an exemption from not being able to evaluate whether the privileges, which are recognized due to COVID-19 in the lease payments, have been made in the lease. The amendment does not have a significant impact on the financial situation or performance of the Bank.

Due to the Group's implementation of TFRS 16, assets classified under tangible assets as of June 30, 2020 amounted to TL 405.820 (December 31, 2019 – TL 462.294), lease liability amounted to TL 384.059 (December 31, 2019 – TL 437.285), financing expense amounted to TL 27.650 (December 31, 2019 – TL 62.128) and depreciation expense amounted to TL 112.774 (December 31, 2019 – TL 219.526).

#### **XVI. Explanations on Factoring Receivables**

Factoring receivables are measured at amortized cost using the effective interest rate method after deducting unearned interest income and expected provisions for losses.

#### **XVII. Explanations on Provisions and Contingent Liabilities**

Provisions, other than specific and general provisions for loans and other receivables, and contingent liabilities are provided for in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by the Parent Bank. Whenever the amount of such obligations cannot be measured, they are regarded as "contingent". In the financial statements, a provision is made for an existing commitment resulted from past events if it is probable that the commitment will be settled, and a reliable estimate can be made of the amount obligation. If these criteria are not met, the Parent Bank discloses these issues in the explanations and notes related to the financial statements. In cases where reliable estimate cannot be made of the amount of the obligation, it is considered contingent liabilities. For contingent liabilities if the probability that the event will occur is greater than the probability that it will not and the amount of the obligation can be measured reliably, a provision is made.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**XVIII. Explanations on Obligations of the Group for Employees Benefits**

Provision for employee severance benefits of the Group has been accounted for in accordance with TAS 19 “Employee Benefits”.

In accordance with the existing social legislation in Turkey, the Group is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated due to resignation or for reasons other than misconduct. The retirement pay is calculated for every working year within the Group over salary for 30 days or the official ceiling amount per year of employment and the notice pay is calculated for the relevant notice period time as determined based on the number of years worked for the Group.

The Group has reflected the retirement pay liability amount, which was calculated by an independent actuary, in the accompanying financial statements. According to TAS 19, the Group recognizes all actuarial gains and losses immediately through other comprehensive income.

The Group does not have any employees who work under limited period contracts with remaining terms longer than 12 months after the balance sheet date.

Provision for the employees’ unused vacations has been booked in accordance with TAS 19 and reflected to the financial statements.

There are no foundations, pension trusts or similar associations of which the Group employees are members.

**XIX. Explanations on Taxation**

**1. Corporate Tax**

In accordance with the Corporate Tax Law No. 5520 published in the Official Gazette No: 26205 dated June 21, 2006, statutory income is subject to corporate tax at 20%. However, according to temporary article 10 added to the Corporate Income Tax Law, the rate of 20% shall be applied as 22% for the corporate earnings of the taxation periods of the companies in 2018, 2019 and 2020 (accounting periods starting within the relevant year for companies appointed for the special accounting period). Advance corporate taxes paid are followed under “Current Tax Liability” or “Current Tax Asset” account and are deducted from the corporate taxes of the current year.

50% of gain from the sale of real estate which are held more than two years in the assets of the Parent Bank and 75% of gain on disposal of subsidiary shares which are held for more than two years in the assets of the Parent Bank are exemption from tax according to Corporate Tax Law in condition with adding these gains into equity or allocating into a specific fund account in the Parent Bank’s liabilities for five years.

Companies calculate their advance tax at the rate of 20% (for taxation periods of 2018, 2019 and 2020) on their quarterly financial profits, declare until the 14th day of the second month following that period and pay until the evening of the seventeenth day. The advance tax paid belongs that year and is offset from the corporation tax that will be calculated on the tax declaration of the companies to be given in the following year. If the advance tax paid amount remains after offsetting, this amount could be either returned as cash or offset.

According to the Corporate Tax Law, financial losses in the declaration can be deducted from the corporate tax base of the period not exceeding 5 years. Declarations and related accounting records can be examined within five years by the tax office. On the other hand, if document subjects to stamp duty and the statute of limitations of tax and penalty is used after the expiry of the time limit, the taxable income of document is regenerated.

The provision for corporate and income taxes for the period is recognized as “Current Tax Charge” in the income statement and current tax effect related to transactions directly recognized in equity are reflected to equity.

Undistributed profit for the period is not subject to withholding tax if it is added to capital or it is distributed to full-fledged taxpayer corporations. However, with the Council of Ministers’ decisions numbered 2009/14593 and 2009/14594; published in the Official Gazette No: 27130 dated February 3, 2009 and based on Corporate Tax Law No: 5520, 15th and 30th Articles, profit distribution for the period is subject to withholding tax by 15%, for full-fledged real person taxpayers, for those who are not responsible for corporate tax and income tax, for those exempt from corporate and income tax (except for those taxed through their businesses or permanent representatives in Turkey) and for foreign based real person taxpayers.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**2. Deferred Taxes**

The Group calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with “Turkish Accounting Standard for Income Taxes” (“TAS 12”) and the related decrees of the BRSA concerning income taxes. In calculating deferred tax, legalized tax rates effective as of balance sheet date are used as per tax legislations.

Deferred tax liabilities are recognized for all temporary differences whereas deferred tax assets calculated from deductible temporary differences are only recognized if it’s highly probable that these will in the future create taxable profit.

The Group has started to be recognized deferred tax from the expected credit losses of Stage 1 and Stage 2 expected credit losses provisions.

Deferred tax effect in regard to transactions accounted for profit/loss effect in equity, is also reflected to equity.

According to TAS 12, deferred taxes and liabilities resulting from different subsidiaries subject to consolidation are not presented as net; rather they are presented separately as assets and liabilities in the financial statements.

Since the applicable tax rate has been changed to 22% for the 3 years beginning from January 1, 2018, 22% tax rate is used in the deferred tax calculation of June 30, 2020 for the temporary differences expected to be realized/closed for the year 2020 (for the years 2018, 2019 and 2020). However, since the corporate tax rate after 2020 is 20%, 20% (December 31, 2019: 20%) tax rate is used for the temporary differences expected to be realized/closed after 2020.

**3. Transfer Pricing**

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communique on Disguised Profit Distribution by way of Transfer Pricing” published on November 18, 2007 explains the application related issues in detail. According to this Communique, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing.

Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. Disguised profit distribution amount will be recognized as share in net profit and stoppage tax will be calculated depending on whether the profit distributing institution is a real or corporate entity, full-fledged or foreign based taxpayer, is subject to or exempt from tax.

As discussed under subject Communique’s 7.1 Annual Documentation section, taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

**XX. Additional Explanations on Borrowings**

The Parent Bank and consolidated Group companies generate funds from domestically and internationally resident people and institutions by using debt instruments such as syndication, securitization, collateralized debt and bond issuance. Aforementioned transactions are initially recorded at transaction cost plus acquisition cost, reflective of their fair value, and are subsequently measured at amortized cost by using effective interest rate method.

**XXI. Explanations on Share Issues**

The Parent Bank's paid in capital has not been changed for the current period (The Parent Bank's paid in capital has not been changed for the prior period).

**XXII. Explanations on Confirmed Bills of Exchange and Acceptances**

Confirmed bills of exchange and acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts as possible debt and commitment, if any. There are no acceptances and confirmed bills of exchange presented as liabilities against any assets.

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**XXIII.Explanations on Government Incentives**

As of June 30, 2020, the Group does not have any governmental incentives or support (December 31, 2019 – None).

**XXIV. Explanation on Segment Reporting**

In addition to corporate banking, retail banking and commercial banking services, the Group also provides private banking, SME banking, treasury operations and credit card services through branches and alternative channels. The Group serves its retail banking clients with time, demand deposits, also overdraft services, automatic account services, consumer loans, vehicle loans, housing loans and investment fund services. The Group provides services including deposit and loans, foreign trade financing, forward and option agreements to its corporate clients. Other than those mentioned above, the Group also serves in trading financial instruments, treasury operations, and performs insurance, factoring, and domestic and abroad finance lease operations.

The calculations based on the income statement for retail banking (consumer banking and plastic cards), corporate and commercial banking that have operational units designated as the main profit centers, have been made according to the product and customer types. During the profitability calculations, the pricing of transfers among these units and treasury unit are made by using cost/return ratios that are determined by the Parent Bank’s senior management and which are updated periodically. In this pricing method, general market conditions and the Parent Bank’s internal policies are considered.

The Corporate Marketing Unit provides services to firms that are institutional, big size, that have annual revenues of TL 300.000 and higher and multi-national firms operating in Turkey. The firms that have annual revenues between TL 60.000 - TL 300.000 are considered as “Commercial Enterprise”. The Parent Bank gives importance to the commercial segmentation in order to hedge risk and decrease the concentration of income. Moreover; The Parent Bank also offers sectoral solution packages to these small and medium-size firms.

The Consumer Banking meets the needs and expectations of the retail banking customers. The Private Banking Unit has formed and started to operate to serve customers with high level income, in a more effective way. The installments, discounts and bonus advantages are provided to the users of Card Finans in the plastic cards line. The main function of Treasury Segment is managing the liquidity of the Parent Bank and interest and foreign currency risks resulting from market conditions. This segment is in close relation with corporate, commercial, retail, SME and private banking units in order to increase the number of customers and the volume of transactions in treasury products of the Parent Bank.

## XXV. Profit Reserves and Profit Distribution

The Board of Directors Meeting of the Parent Bank was held on March 26, 2020. In the Board of Directors, it was decided that profit distribution 2019 operations to be distributed as follows.

### 2019 Profit Distribution Table:

<b>Current Year Profit</b>	<b>2.622.157</b>
A – First Legal Reserves (Turkish Commercial Code 519/A) 5%	670.000
C – Extraordinary Reserves	1.952.157

## XXVI. Earnings Per Share

Earnings per share listed on income statement is calculated by dividing net profit to weighted average amount of shares issued within respective year.

	<b>Current Period</b>	<b>Prior Period</b>
Group's Net Profit for the Period	1.365.082	1.381.099
Weighted Average Amount of Shares Issued (Thousands)	33.500.000	33.500.000
<b>Earnings per Share</b>	<b>0,0407</b>	<b>0,0412</b>

In Turkey, companies can increase capital through “bonus share” distributed from previous year earnings to current shareholders. Such “bonus share” distributions are accounted as issued shares while calculating earnings per share. Accordingly, weighted average amount of shares issued used in these calculations is found through taking into consideration retroactive effects of subject share distributions. In case, amount of shares issued increases after the balance sheet date but before the date of financial statement preparation due to distribution of “bonus share”, earnings per share is calculated taking into consideration the new amount of shares. Amount of issued bonus shared in 2020 is none (Amount of issued bonus shared in 2019 is none).

## XXVII. Explanations on Other Matters

None.

**(CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS AND RELATED DISCLOSURES AND FOOTNOTES ORIGINALLY ISSUED IN TURKISH)**

**SECTION FOUR**

**INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE GROUP**

**I. Explanations on Consolidated Equity:**

Total capital and Capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks.” As of June 30, 2020, Group’s total capital has been calculated as TL 26.234.244 (December 31, 2019: TL 24.442.427), capital adequacy ratio is 16,60% (December 31, 2019: 15,23%) calculated pursuant to former regulations. This ratio is well above the minimum ratio required by the legislation.

Based on the press release made by the BRSA on 23 March, 2020; due to the fluctuations in the financial markets as a result of the COVID-19 outbreak; in the calculation of the amount subject to credit risk in accordance with the Regulation on Measurement and Evaluation of Capital Adequacy; with monetary assets and non-monetary assets excluding assets that are measured in terms of historical cost in a foreign currency valued amount of items in accordance with TAS and its special provision amounts, spot purchase exchange rate can be used in preparation of financial statements as of 31 December, 2019, may be considered in the calculation of Turkish Lira equivalent of credit risk exposures in foreign currencies, and negative revaluation differences of the securities classified under “Financial Assets Measured at Fair Value through Other Comprehensive Income” which acquired before 23 March, 2020 may not be included in capital calculation.

**Components of consolidated shareholders’ equity items:**

**Explanations on the reconciliation of shareholders' equity items and balance sheet amounts:**

There are differences between amounts in the explanation on equity items and amounts on the balance sheet. In this context; up to 1,25% of the amount of the first and second part of the expected loss provisions is taken into account as contribution capital, losses from cash flow hedges have not been taken into consideration in the information on the equity items and valuation adjustments calculated according to item (i) of the first paragraph of the ninth article of the "Regulation on Equity of Banks" have been taken into consideration in the explanations on equity items.

**II. Explanations on Consolidated Risk Management**

Notes and explanations in this section have been prepared in accordance with the Communiqué On Disclosures About Risk Management To Be Announced To Public By Banks that have been published in Official Gazette no. 29511 on October 23, 2015 and became effective as of March 31, 2016. According to Communiqué have to be presented on a quarterly basis. Due to usage of standard approach for the calculation of capital adequacy by the Parent Bank, the following tables have not been presented as of June 30, 2020:

- RWA flow statements of credit risk exposures under IRB
- RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- RWA flow statements of market risk exposures under an IMA

6	Delta-plus method	24.325	76.063
7	Scenario approach	-	-
8	Securitization	-	-
<b>9</b>	<b>Total</b>	<b>4.389.338</b>	<b>3.584.213</b>

(\*) Outright Product refer to positioning products that are not optional.

(\*\*) The Market risk represents the capital requirement multiplied by 12,5 times Risk Weighted Amount.

**III. Explanations on Consolidated Foreign Exchange Risk**

**1. Whether the Group is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the Board of Directors of the Parent Bank sets limits for positions that are monitored daily**

The difference between the Parent Bank's foreign currency denominated and foreign currency indexed assets and liabilities is defined as the "Net Foreign Currency Position" and is the basis of currency risk. Foreign currency denominated assets and liabilities, together with purchase and sale commitments, give rise to foreign exchange exposure ("cross currency risk").

Board of Directors has determined the limits considering the consistency with the "Foreign Currency Net General Position." Positions are being followed daily and limits are reviewed at least once a year depending on economic conditions and The Parent Bank strategy and updated as deemed necessary.

In measuring the exchange rate exposure of The Parent Bank, the "standard method" used in the legal reports and the internal method. The measurements made within the scope of the standard method are carried out monthly and the measurements made within the scope of VaR calculations are carried out on a daily basis.

**2. The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using derivatives**

The Group hedges foreign currency borrowings with derivative instruments. The Group does not hedge net foreign currency investments with derivative instruments.

**3. The spot foreign exchange bid rates of the Parent Bank as of the balance sheet date and for each of the five days prior to that date**

US Dollars purchase rate in the balance sheet date      TL 6,8422  
 Euro purchase rate in the balance sheet date              TL 7,7082

<u>Date</u>	<u>US Dollar</u>	<u>Euro</u>
June 30, 2020	6,8422	7,7082
June 29, 2020	6,8417	7,6776
June 26, 2020	6,8434	7,6796
June 25, 2020	6,8452	7,7363
June 24, 2020	6,8440	7,7278

**4. The basic arithmetical average of the Parent Bank's foreign exchange bid rate for the last thirty days**

The basic arithmetical average of the Parent Bank's US Dollar and Euro purchase rates for June 2020 are TL 6,8088 and TL 7,6624 respectively.

**IV. Explanations on Consolidated Interest Rate Risk**

Interest rate risk that would arise from the changes in interest rates depending on the Parent Bank's position is managed by the Asset/Liability Committee of the Parent Bank.

Interest rate sensitivity of assets, liabilities and off-balance sheet items is analyzed by top management in the Asset/Liability Committee meetings held every month by taking the market developments into consideration. The management of the Parent Bank follows the interest rates in the market on a daily basis and revises interest rates of the Parent Bank when necessary. Parent Bank's asset and liabilities carry positive interest rate income and are repriced every six months. Therefore, the Parent Bank holds limited amount of interest rate risk.

Besides customer deposits, the Parent Bank funds its long-term fixed interest rate TL loan portfolio with long term (up to 10 years) floating interest rate foreign currency funds obtained from international markets. The Parent Bank changes the foreign currency liquidity obtained from the international markets to TL liquidity with long term swap transactions (fixed TL interest rate and floating FC interest rate). Therefore, the Parent Bank not only funds its long-term fixed interest rate loans with TL but also hedges itself from interest rate and maturity risk.

**Information related to the interest rate sensitivity of assets, liabilities and off-balance sheet items**

**VI. Explanations on Consolidated Liquidity Risk Management and Consolidated Liquidity Coverage Ratio**

Liquidity Risk of the Parent Bank is monitored and managed in accordance with Liquidity Risk Management Policy. According to this policy, Board of Directors is responsible to review and approve risk profile and appetite of the Parent Bank periodically. Senior Management takes necessary measures to monitor aforementioned risk and controls liquidity risk in line with accepted strategies and policies.

Treasury Department is responsible to carry out liquidity strategy determined and approved by Board of Directors. Risk Management Department is responsible to define, measure, monitor and control liquidity risk besides developing internal and external methods and procedures which are in line with context and structure of applicable activities in The Parent Bank in order to monitor related limits. Senior management of The Parent Bank is informed periodically regarding current liquidity risk amount exposed in order to ensure being under the approved limits of the Parent Bank's liquidity risk profile. Assets and Liabilities Committee (ALC) meetings, which ensure the necessary monitoring for liquidity risk, are held monthly. Risk Committee reviews the liquidity risk of the Parent Bank monthly in addition to aforementioned meetings and informs Board of Directors. The Parent Bank reviews its liquidity position daily. Internal and legal reports related to liquidity positions are examined in ALC meetings monthly with the participation of senior management. Several decisions are taken related to management of short- and long-term liquidity in this scope. Internal metrics such as reserve liquidity and deposit concentration are monitored daily besides liquidity coverage rate related to measurement of liquidity coverage. Internal limit and warning level are periodically monitored and reported to related parties by the Board of Directors.

The Parent Bank has no liquidity management center and each entity, which is under control of the Parent Bank, performs its liquidity management separately from the Parent Bank by an authority responsible for liquidity management. Fund amounts, which shall be used by associates from the Parent Bank, are determined in the framework of limits.

It is essential for the Parent Bank to monitor its liquidity position and funding strategy consistently. Funding management of the Parent Bank is carried out in line with limits and internal warning systems within the framework of ALC decisions. Funding and placement strategies are developed through evaluating the liquidity of the Parent Bank.

A large part of the Parent Bank's liabilities consists of TL, USD and EUR. Gap reports issued based on the aforementioned three currencies are presented in ALC meetings. Maturity mismatches based on currencies are managed through FX swap and FX forward.

The Parent Bank diversifies its funding sources as customer deposits, foreign loans and bond issuance in order to reduce its liquidity risk. Measures are taken through making investments to assets having higher capacity to generate cash against liquidity crisis. The Parent Bank watches over reducing customer deposit concentration and controls concentration level daily in line with warning level approved by the Board of Directors.

Liquidity life cycle approach is determined as the liquidity risk stress test methodology. This approach is a stress test to measure the period in which the Parent Bank can meet its cumulative cash outflows without providing a fund from the market. Liquidity life cycle is calculated according to various scenarios and simulated in line with possible scenarios in crisis situation and the results are reported to Risk Committee and Board of Directors.

Emergency Funding Plan (EMP) of the Parent Bank regulates funding activities to be used in liquidity crisis periods specific to the Parent Bank or in liquidity crisis at financial markets. EMP defines components triggering the crisis and early warning indicators which help to evaluate and manage the liquidity crisis and determine primary funding structure. EMP also defines actions of the Parent Bank against cash and guarantee need. In addition to aforementioned issues, EMP determines duties and responsibilities in performing actions in a liquidity crisis included in risk management and emergency funding plan.

Due to the financial uncertainty caused by the coronavirus epidemic, undemonstrative liquidity management has been one of the top priorities of the Parent Bank. Although a flexibility provided to comply with the minimum ratios of the Liquidity Coverage Ratio (LCR) according to the regulation published by the BRSA on March 26, 2020, the Parent Bank manages LCR above the limit by keeping its high-quality liquid assets at a sufficient level. The Parent Bank has created four different stress test scenarios that measure how long it can meet the cumulative cash outflows, without providing any new funds from the market or by providing very low levels of funding. A new scenario created by observing the financial movements that occurred during the coronavirus epidemic process, and it is observed that the Parent Bank's liquid assets can be converted into cash in order to meet its liquidity needs over 30 days, which is the minimum life span of all scenarios.

**(CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS AND RELATED DISCLOSURES AND FOOTNOTES ORIGINALLY ISSUED IN TURKISH)**

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

The dates and values of minimum and maximum foreign currency and total liquidity coverage ratios calculated weekly related to the first three months of 2020 are explained in the table below. According to “Regulation on Liquidity Coverage Ratio Calculation” published in the Official Gazette numbered 28948, dated March 21, 2014.

	<b>Maximum</b>	<b>Week</b>	<b>Minimum</b>	<b>Week</b>	<b>Average</b>
<b>TL+FC</b>	132,38	21.04.2020	107,64	17.05.2020	119,01
<b>FC</b>	202,40	10.04.2020	136,05	14.06.2020	160,66

Liquidity coverage ratio is regulated by the BRSA to make sure that the banks sustain high quality liquid asset stock to cover probable cash outflows in the short term.

All of the Parent Bank’s high-quality liquid assets are comprised of first quality liquid assets, most of which are CBT accounts and securities that are issued by the Turkish Treasury that have not been collateralized. Optional use of reserve levels and fluctuations in repo amount lead up to periodical variations in liquidity coverage ratio. Additionally, syndication loans and large amount funds such as foreign bond issuances that have less than 1 month to maturity, lead up to short term fall in liquidity coverage ratios.

Funding sources of the Parent Bank mainly consist of deposits which constitute 57% of total liabilities of the Group (December 31, 2019 – 56%) and also include repo, secured loans, syndication, securitization, bond/security issuance and other instruments including subordinated debts.

The Parent Bank effectively uses derivative transactions to manage interest and liquidity risk. Impact of derivative cash flows in terms of liquidity coverage ratio is limited. However, FX swaps used in short term foreign currency liquidity management cause liquidity coverage ratio to fluctuate due to changes in volume and one-month maturity. In addition, possible cash outflow caused by margin call requirements of derivative transactions is taken into consideration in accordance with the respective regulations.

Secured funding consists of repo and secured loan transactions. A large part of securities which are subjects of aforementioned guaranteed funding transactions consist of Sovereign Bonds issued by Treasury of the Republic of Turkey and transactions are carried out both in CBRT market and interbank market.

The Parent Bank manages all the transactions made before its foreign branches and partnership in the framework of central bank, markets and related legislation of the country in which the institutions are located. Legal lending limits and high limit transactions are closely monitored in this framework.

All cash inflow and outflow items related to liquidity profile of the Parent Bank are included in liquidity coverage ratio tables above.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)

**VII. Explanations on Consolidated Leverage Ratio**

**a) Information in regard to the differences between current period and prior period leverage ratio:**

The Group's leverage ratio, calculated in accordance with the "Regulation on Measurement and Evaluation of Bank's Leverage Levels" is 6,90% (December 31, 2019: 7,32%). Subject level is above the minimum requirement which is determined as 3% by the regulation. Difference between current period and prior period leverage ratios is mostly due to increase in risk amounts of balance sheet asset items.

**b) Summary comparative table for total asset and total risk amount in consolidated financial statements prepared in accordance with TFRS:**

	<b>Current Period<sup>(**)</sup></b>	<b>Prior Period<sup>(**)</sup></b>
<b>1</b> Total asset amount in consolidated financial statements prepared in accordance with TFRS <sup>(*)</sup>	217.328.334	183.777.771
<b>2</b> Difference between total asset amount in consolidated financial statements prepared in accordance with TFRS and total asset amount in consolidated financial statements prepared in accordance with the Communique on the Preparation of Consolidated Financial Statements	451.946	409.792
<b>3</b> Difference between risk amounts and amounts in consolidated financial statements prepared in accordance with the Communique on the Preparation of Consolidated Financial Statements of derivative financial instruments and credit derivatives	1.663.411	1.359.218
<b>4</b> Difference between risk amounts and amounts in consolidated financial statements prepared in accordance with the Communique on the Preparation of Consolidated Financial Statements of investment securities or financial transaction that are commodity collateralized	120.362	112.438
<b>5</b> Difference between risk amounts and amounts in consolidated financial statements prepared in accordance with the Communique on the Preparation of Consolidated Financial Statements of off-balance transactions	94.592.821	88.094.563
<b>6</b> Other differences between risk amounts and amounts in consolidated financial statements prepared in accordance with the Communique on the Preparation of Consolidated Financial Statements	(807.115)	(762.528)
<b>7 Total Risk Amount</b>	<b>313.349.759</b>	<b>272.991.254</b>

(\*) Consolidated financial statements prepared in accordance with the 5th clause and 6th subclause of Communique on the Preparation of Consolidated Financial Statements.

(\*\*) Amounts presented above represent the arithmetic average of the last three months.

**EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS**

**I. Explanations And Disclosures Related To Consolidated Assets**

**1. a) Information on cash and balances with the Central Bank of Turkey:**

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	692.786	1.877.265	681.486	944.326
T.R. Central Bank	1.021.130	23.339.121	446.072	16.659.924
Others	76.548	111.609	-	18.734
<b>Total</b>	<b>1.790.464</b>	<b>25.327.995</b>	<b>1.127.558</b>	<b>17.622.984</b>

**b) Information related to the balances with the Central Bank of Turkey:**

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted Demand Deposits	1.021.130	8.326.480	446.072	8.505.856
Restricted Time Deposits	-	15.012.641	-	8.154.068
<b>Total</b>	<b>1.021.130</b>	<b>23.339.121</b>	<b>446.072</b>	<b>16.659.924</b>

As of June 30, 2020, amount of TL 1.884 (December 31, 2019 – TL 2.309) provision provided for the account T.R. Central Bank.

As of 30 June 2020, our bank has been appointed to C.B.R.T. depending on the maturity structure, the required reserve rates for TL liabilities vary between 1% and 2% for TL deposits and other liabilities according to their maturities. The reserve rates for foreign currency liabilities vary between 0% and 16% for deposit and other foreign currency liabilities according to their maturities.

In accordance with the “Communiqué Regarding the Reserve Requirements”, the reserve requirements can be maintained as TL, USD, EUR and standard gold. As of June 30, 2020 the Bank received an interest rate since the Bank reaches to a credit growth rate of 8%.

**k) Liquidation policy for uncollectible loans and other receivables:**

For the unrecoverable non-performing loans under legal follow up, the loan quality, collateral quality, bona fide of the debtor and assessment of the emergency of legal follow up are considered, before applying the best practice for unrecoverable non-performing loans under legal follow up. The Parent Bank prefers to liquidate the risk through negotiations with the debtors as well as The Parent Bank starts the legal procedures for the liquidation of the risk. Ongoing legal follow up procedures do not prevent negotiations with the debtors. An agreement is made with the debtor at all stage of the negotiations for the liquidation of the risk.

**l) Explanations on write-off policy:**

The Group's general policy for write-offs of loans and receivables under follow-up is to write of such loans and receivables that are proven to be uncollectible in legal follow-up process.

<b>Total</b>	<b>2.626.222</b>	<b>19.494.886</b>	<b>2.042.956</b>	<b>17.376.361</b>

The Parent Bank's fund sources include deposits, funds borrowed, securities issued and money market borrowings. Deposit is the most significant fund source of the Parent Bank and does not present any risk concentration with its consistent structure extended to a wide base. Funds borrowed mainly consist of funds provided by foreign financial institutions which have different characteristics and maturity-interest structure such as syndication, securitization, and post-financing. There isn't risk concentration on the fund sources of the Parent Bank.

**c) Additional information on concentrations of the Group's liabilities**

As of June 30, 2020, the Group's liabilities comprise; 57% deposits (December 31, 2019 – 56%), 10% funds borrowed (December 31, 2019 – 10%), 7% issued bonds (December 31, 2019 – 8%) and 6% funds provided from money market borrowings (December 31, 2019 – 5%).

<b>Total</b>	<b>435.673</b>	<b>384.059</b>	<b>512.618</b>	<b>437.285</b>

**7.4 Explanations and notes on operational lease**

The Parent Bank records lease payments made in accordance with its operating lease agreements during the lease period, in equal amounts. The bank makes operating lease agreements for some branches and ATM machines. The lease agreements are amortized during the lease period by measuring the lease obligation based on the present value of the lease payments (lease obligation) that has not been paid at that time (the lease obligation) as well as the relevant usage right as of the same date. Lease payments are discounted using this rate if the implicit interest rate in the lease can be easily determined. If the tenant cannot easily determine this rate, he uses the alternative borrowing interest rate. The tenant separately records the interest expense on the rental obligation and the depreciation expense of the right to use asset.

**7.5. Information on “Sale -and- lease back” agreements**

The Parent Bank does not have any sale-and-lease back transactions in the current period (December 31, 2019 None).

**8. Information on liabilities arising from hedging purpose derivatives:**

	Current Period <sup>(***)</sup>		Prior Period	
	TL	FC	TL	FC

*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**5.1 Fair value hedge accounting**

**a) Loans**

The Parent Bank enters into swap transactions in order to hedge itself from the changes in the fair value due to the changes in market interest rates of a certain portion of its long-term loans and applies fair value hedge accounting as per TAS 39. As of balance sheet date; the mortgage loans amounting to TL 5.873.571 (December 31, 2019 – TL 8.122.097) were subject to hedge accounting by swaps with a nominal of TL 4.978.575 (December 31, 2019 – TL 6.608.353). On June 30, 2020 the net market valuation difference loss amounting to TL 887 due to the loss from the loans amounting to TL 136.321 (December 31, 2019 – TL 919.613 gain) and gain from swaps amounting to TL 135.433 (December 31, 2019 – TL 864.039 loss) gain is accounted for under “gain / (loss) from financial derivatives transactions” line in the accompanying financial statements.

Subsidiary QNB Finans Finansal Kiralama A.Ş. applies fair value hedge accounting through interest rate swaps in order to protect itself from interest rate changes in relation to its fixed rate foreign currency lease transactions. As of the balance sheet date, swaps amounting to TL 53.200 have been subject to hedge accounting as hedging instruments. As a result of the mentioned hedge accounting, in the current period, the net market valuation difference expense amounting to TL 365 before tax was recognized in the financial statements as “Profit / Loss from Derivative Financial Transactions”.

When the fair value hedge accounting cannot be effectively continued as stated in TAS 39, the fair value hedge accounting is ceased. The fair value differences of the hedged loans are amortized through income statement until the maturity of the hedged loans. The Bank has booked the valuation effect amounting to TL 98.901 (December 31, 2019 – TL 136.590 loss) related to the loans that are ineffective for hedge accounting under “gain / (loss) from financial derivatives transactions” as loss during the current period.

**b) Financial assets measured at fair value through other comprehensive income**

The Parent Bank applies fair value hedge accounting to hedge itself against the changes in the interest rates related to long term foreign currency Eurobonds with fixed coupon held by the Parent Bank using swaps as hedging instruments. As at the balance sheet date; Eurobonds with a nominal of USD 372.759 million and EUR 49.8 million (December 31, 2019 – USD 373.663 million and EUR 49.8 million) were subject to hedge accounting by interest rate swaps with the same nominal value. On June 30, 2020, the net market valuation difference gain amounting to TL 3.040 due to gain from Eurobonds amounting to TL 397.372 (December 31, 2019 – TL 215.945 gain) and loss from swaps amounting to TL 394.332 (December 31, 2019 – TL 215.250 loss) is accounted for under “gain / (loss) from financial derivatives transactions” line in the accompanying financial statements.

The Bank does not apply fair value hedge on TL government bonds in the current period. (December 31, 2019 - none)

**c) Marketable securities issued**

The Parent Bank applies fair value hedge accounting to hedge itself against the changes in the interest rates related to the foreign currency bonds issued using interest rate swaps as hedging instruments. As of the balance sheet date, bonds with nominal amount of USD 780 million (December 31, 2019 – USD 780 Million) have been subject to hedge accounting with the same nominal amount of swaps. As of June 30, 2020, TL 264 net fair valuation difference loss, net of TL 221.419 (December 31, 2019 – TL 69.763 loss) loss from issued bonds and TL 221.155 (December 31, 2019 – TL 69.801 gain) gain from swaps, has been recorded under “Gain / (loss) from financial derivatives transactions” on accompanying financial statements.

**d) Borrowings**

The Parent Bank, applies fair value hedge accounting through interest rate swaps in order to protect itself from changes in interest rates with respect to the fixed rate foreign currency loan it uses. In this context; The Bank ended its fair value hedge accounting practice on January 1, 2020, which started on December 27, 2015, regarding the loan amounting to EUR 30 million. Accounting application is terminated when fair value hedge accounting is not effectively maintained as defined in TAS 39. According to this; The valuation effects created by the fair value hedge accounting applied on hedged loans are reflected in the income statement throughout the life of the loans. Regarding the said hedge accounting practice whose effectiveness has deteriorated, the Bank has recognized the valuation effect amounting to TL 693 (31 December 2019 - None) in the income statement as income in the “Profit / Loss from Derivative Financial Transactions” account.

**(CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS AND RELATED DISCLOSURES AND FOOTNOTES ORIGINALLY ISSUED IN TURKISH)**

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

Subsidiary QNB Finans Finansal Kiralama A.Ş. applies fair value hedge accounting through interest and currency swaps in order to protect itself from changes in interest rates in relation to fixed interest rate TL loans. At each balance sheet date, the Bank conducts efficiency tests for hedging accounting, and the active parts are accounted in “hedging funds” under equity in the financial statements as defined in TAS 39, while the amount related to the inactive part is associated with the income statement. As of the balance sheet date, swaps amounting to TL 6.111 were subject to hedge accounting as hedging instruments. As a result of the mentioned hedge accounting, in the current period, the net market valuation difference income amounting to TL 1 before tax was recognized in the financial statements as “Profit / Loss from Derivative Financial Transactions”.

Subsidiary QNB Finans Finansal Kiralama A.Ş. applies fair value hedge accounting through interest and currency swaps in order to protect itself from changes in interest rates in relation to fixed interest rate TL loans. As of the balance sheet date, swaps amounting to TL 251.852 were subject to hedge accounting as hedging instruments. As a result of the mentioned hedge accounting, in the current period, the net market valuation difference income amounting to TL 1 before tax was recognized in the financial statements as “Profit / Loss from Derivative Financial Transactions”.

Subsidiary QNB Finans Finansal Kiralama A.Ş. applies fair value hedge accounting through swaps in order to protect itself from changes in interest rates with respect to TL and foreign currency loans and securities. As of the transaction date, a loan amounting to TL 434.215 has been subject to hedge accounting with the same consistent swaps. As of June 30, 2020, net expense of valuation of TL 33, including TL 87 of expense from loans and TL 120 of income from swaps, was accounted in the “Profit / Loss from Derivative Financial Transactions” account in the attached financial statements.

**5.2 Cash flow hedge accounting**

**a) Floating Rate Loans**

The Parent Bank is subject to cash flow risk protection accounting through interest rate swaps in order to protect a certain portion of its long-term variable rate loans from changes in market interest rates. At each balance sheet date, the Bank conducts efficiency tests for hedging accounting, and the active parts are accounted in “hedging funds” under equity in the financial statements as defined in TAS 39, while the amount related to the inactive part is associated with the income statement. As of the balance sheet date, swaps with a nominal amount of USD 875 million (31 December 2019- USD 875 million) have been subject to hedging accounting as hedging instruments. As a result of the said hedging accounting, fair value income before tax of TL 249.135 (31 December 2019 – TL 20.790) was accounted under equity in the current period. The gain amounting to TL 3 relating to the ineffective portion is accounted for at the income statement.

**b) Deposit**

The Parent Bank applies cash flow hedge accounting using interest rate swaps in order to hedge itself from the interest rate changes of deposits that have an average maturity of 3 months, the Bank implements cash flow hedge accounting with interest rate swaps. The Parent Bank implements efficiency tests at the balance sheet dates for hedging purposes; the effective portions are accounted for under equity “Hedging Funds”, whereas the ineffective portions are accounted for at income statement as defined in TAS 39. As at the balance sheet date, swaps amounting to TL 210.000 are subject to hedge accounting as hedging instruments (December 31, 2019 – TL 1.600.000). As a result of the mentioned hedge accounting, fair value gain before taxes amounting to TL 32.723 are accounted for under equity during the current period (December 31, 2019 – TL 243.972 loss). The amounts for the ineffective portion of revenues in the amount of TL 641 gain is associated with the income statement (December 31, 2019 – TL 182 gain).

As of the balance sheet date, swaps with a nominal amount of USD 2.244 (December 31, 2019 – USD 2.529 Million) have been subject to hedge accounting with USD deposits and swaps with a nominal amount of EUR 74 million (December 31, 2019 – EUR 104 million) have been subject to hedge accounting with Euro deposits. As a result of above-mentioned hedge accounting, fair value loss before taxes amounting to TL 430.088 are accounted under equity during the current period (December 31, 2019 – TL 790.817 loss). The loss amounting to TL 850 (December 31, 2019 – TL 1.525 loss) relating to the ineffective portion is accounted under at the income statement.

**(CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS AND RELATED DISCLOSURES AND FOOTNOTES ORIGINALLY ISSUED IN TURKISH)**

**QNB FİNANSBANK ANONİM ŞİRKETİ**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTH PERIOD THEN ENDED MARCH 31, 2020**  
*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

When the fair value hedge accounting cannot be effectively continued as stated in TAS 39, the fair value hedge accounting is ceased. Effective parts classified under equity due to hedge accounting are amortized through income statement until the maturity of swaps in case of ineffectiveness at periods when the expected cash flows subject to hedge accounting affect profit or loss (as in periods when interest income or expense is recognized). In the current period there is gain of TL 13.639 transferred amount from equity to income statement due to ineffectiveness or matured swaps (December 31, 2019– TL 20.045 gain).

The measurements as of June 30, 2020, hedge of cash flow transactions stated above are determined as effective.

**c) Floating Rate Liabilities**

The Parent Bank applies cash flow hedge accounting using interest rate swaps in order to hedge its subordinated loans which have floating interest payment. The Bank implements efficiency tests at the balance sheet dates for hedging purposes; the effective portions are accounted for under equity “Hedging Funds”, whereas the ineffective portions are accounted for at income statement as defined in TAS 39. As at the balance sheet date, swaps amounting to USD 485 million are subject to hedge accounting as hedging instruments (December 31, 2019 – USD 485 million). As a result of the mentioned hedge accounting, fair value loss before taxes amounting to TL 133.966 are accounted for under equity during the current period (December 31, 2019- TL 94.034 loss).

On the other hand; Accounting application is terminated when cash flow hedge accounting is not effectively maintained as defined in TAS 39. According to that the effective amounts classified under equity due to hedge accounting are reclassified into profit or loss as the reclassification adjustments during periods or periods when the estimated cash flows subject to hedging in case of deterioration of the event affect profit or loss (such as the periods when interest income or expense is accounted for). In this context; In the current year, the Bank ended the hedge accounting practice of the USD 325 million subordinated loan it used for the purpose of hedging cash flow due to the change in the contract conditions. Due to hedge accounting practices terminated in the current year, a loss amounting to TL 13.054 (31 December 2019 - TL 4.568 loss) was transferred from the equity to the income statement.

The measurements as of June 30, 2020, hedge of cash flow transactions stated above are determined as effective.

**6. Credit derivatives and risk exposures on credit derivatives**

As of June 30, 2020, the Parent Bank has no commitments “Credit Linked Notes” (As of December 31, 2019 - None).

As of June 30, 2020, “Other Derivative Financial Instruments” with nominal amount of USD 160.000.000 (December 31, 2019: USD 205.000.000) are included in Parent Bank’s “Credit Default Swap”. In aforementioned transaction, The Bank is the seller of the protection for USD 160.000.000.

**7. Information on contingent liabilities and assets**

The Parent Bank has recorded a provision of TL 152.450 (December 31, 2019 - TL 106.152) for litigation and has accounted for it in the accompanying financial statements. Except for the claims where provisions are recorded, management considers as remote the probability of a negative result in ongoing litigations and therefore does not foresee cash outflow for such claims.

**8. Information on the services in the name and account of third parties**

The Group acts as an investment agent for banking transactions on behalf of its customers and provides custody services. Such transactions are followed under off-balance sheet accounts.

	Prior Period	
	TL	FC
Financial Assets Measured at Fair Value through Profit/Loss	6.112	391
Financial Assets Measured at Fair Value through Other Comprehensive Income	413.426	133.921
Financial Assets Measured at Amortized Cost	620.774	168.248
<b>Total</b>	<b>1.040.312</b>	<b>302.560</b>

As stated in Section Three disclosure VII.2, the Parent Bank has inflation indexed (CPI) government bonds in its financial assets measured at fair value through other comprehensive income and financial assets measured at amortized cost portfolios. As disclosed in 'Inflation Indexed Bonds Manual' published by Turkish Treasury, reference index used for the actual payments is determined based on the inflation rates of two months before. The estimated inflation rate used is updated during the year when necessary. In this context, as of June 30, 2020, valuation of such assets is made according to estimated annual inflation rate of 7%. If valuation of these securities indexed to the CPI had been done by the reference index valid through June 30, 2020, the Group's Marketable securities valuation differences after tax would be decreased by TL 9,3 million and net profit would be increased by TL 52,5 million to TL 1.418 million.

**SECTION SEVEN**  
**CONSOLIDATED INTERIM ACTIVITY REPORT**

**I. Interim Consolidated Activity Report that Includes the Assessment of the Chairman of the Board of Directors and General Manager of Operations**

**Message by the Chairman of the Board of Directors**

Dear Shareholders,

The year 2020 and the COVID-19 pandemic will be recorded as a milestone in the world history, marking a change in human health and the world economy, alongside social restructuring and awareness of climate and sustainability.

The World has gradually adopted a new normal since June 2020, and the wheels of the global economy have slowly started turning again. The world still struggles with the pandemic on the one hand, while acting towards preventing from the material economic shrinkage on the other.

IMF has revised its forecast for the global economy, projecting a 4.9 percent contraction this year, lower than the 3 percent fall it had projected back in April, as COVID-19 pandemic impacts the economy more adversely than initially expected.

Since the beginning of the pandemic, Turkey has been able to overcome COVID-19 with a lower death toll compared to other nations, particularly thanks to the thriving Turkish healthcare system as well as the big achievements and devoted endeavors of Turkish health care professionals.

Turkey will serve as a major supply chain hub in this period as well, with its regional advantage and strong real sector. Export and production will be our most important topics of focus in the coming period.

At QNB Finansbank, our utmost priority is the health of our employees and customers during the COVID-19 period. We became the first bank to have adopted remote working and back-up branch practices. As of June 1, we resumed processes with the new normal. With that being said, the health of our employees and customers will always be our number one priority. We maintain our pioneering mission with the measures that we took in this field.

In this period, we fulfilled our responsibilities to turn the wheels in real sector. We supported the real sector by introducing loans aimed at SME and the agricultural banking clients for return to business, and postponing loan repayments and debt restructuring to offer peace of mind to our clients.

Our Bank prioritizes standing by the economy and real sector with all of their financial needs. It was named the Best Bank for SMEs in the Central and Eastern Europe in “2020 Awards of Excellence” organized by one of the world’s most prominent and prestigious financial institutions and publishing groups, Euromoney. We owe this achievement to walking beside our clients, identifying the needs accurately, creating new models during significant financial changes, and our leading position in the industry with our digital infrastructure.

A new process awaits everybody in the coming period with COVID-19. As with all the other industries, banking sector will undergo a restructuring process with digitalization, advancement of online and mobile banking, new ways of doing business and new working life models. At QNB Finansbank, we will be one of the fastest banks to adapt to this process with our strong capital base, pioneering initiatives in digital banking and our financiers.

Commenting on our financial results of the first half of 2020, total assets of QNB Finansbank increased by 15 percent, compared the year-end of 2019, reaching TL 215 billion 156 million as of June 30, 2020. While net loans of the Bank rose by 11 percent to TL 122 billion 65 million, and customer deposits grew by 17 percent to TL 116 billion 870 million. In the first half of 2020, net interest income of the Bank increased by 42 percent, compared to the same period of 2019, reaching TL 4 billion 893 million, and the net fee and commission revenues realized at TL 1 billion 278 million in the same period. The profit before taxes of the Bank amounted to TL 1 billion 709 million, while net profit in the same period reached TL 1 billion 365 million.

We sustained our prominent position in the industry by maintaining our profitability in the first half of 2020, which marks one of the most challenging times in the world history.

I would like to thank our bankers, customers and esteemed stakeholders for their immense contributions during this unprecedented time.

Kind regards,  
Ömer A. Aras  
Chairman of the Board  
QNB Finansbank A.Ş

*(Amounts expressed in Thousands of Turkish Lira (TL) unless otherwise stated.)*

**Message by the General Manager**

**Dear Shareholders and Board Members,**

QNB Finansbank has proved to be one of the most geared-up banks in coping with the COVID-19 outbreak, which marked the first half of 2020, thanks to its robust balance sheet, devoted employees and proactive precautionary actions.

As of June 30, 2020, total assets of our bank increased by 15 percent compared to the year-end of 2019, reaching TL 215 billion 156 million. Tapping into our customer-oriented approach, we continued to grow particularly in the fields of corporate and commercial loans in 2020. Net loans rose by 11 percent compared to the year-end of 2019 to TL 122 billion 65 million, while customer deposits grew by 17 percent to TL 116 billion 870 million. In the first half of 2020, net interest income increased by 42 percent, compared to the same period of 2019, reaching TL 4 billion 893 million, and net fee and commission revenues realized at TL 1 billion 278 million in the same period. Profit before tax for the period amounted to TL 1 billion 709 million, while net profit came to TL 1 billion 365 million.

QNB Finansbank has become the first bank to adopt remote working practices in the middle of March, limit the number of customers inside our branches, and initiate back-up branch approach in order to protect the health of our employees and clients against the effects of COVID-19 pandemic. After wrapping up this process through the devoted efforts of valuable bankers and uninterrupted banking activities, we resumed our work in our branches and headquarters gradually with the “new normal” rules as of June 1, 2020.

Throughout this period, we additionally strove to fulfill our responsibilities towards our clients. We deployed novel solutions to assist our retail and business clients with their financial difficulties and to provide them with uninterrupted cash flows. We announced long-term loan packages with grace periods exclusively for our SME and agricultural banking clients returning back to business. Through our Digital Bridge Project, we stood by and supported SMEs, with a turnover below TL 5 million, to be subject to mandatory e-transformation as of July 1, 2020.

We attained a tremendous achievement in “2020 Awards of Excellence” organized by one of the world’s most prominent and prestigious financial institutions and publishing groups, Euromoney, and were named the Best Bank for SMEs in the Central and Eastern Europe thanks to our financial and digital solutions for SMEs, and our Digital Bridge Project, as well as loan support packages aimed at the real sector throughout COVID-19 pandemic.

At QNB Finansbank, we renewed our syndication loan with a 50% increase in May, and raised USD 390 million funds with varying maturities from international banks and institutions. We utilized these resources to support the real sector.

Enpara.com website was named “the best in its class”, with popular vote, in the Banking and Finance category at the 18th edition of Golden Spider Web Awards this year.

We made the first investment in Kassa, an early initiative under the QNBeyond Acceleration Program, with USD 200,000. Additionally, we established QNBeyond Ventures by allocating USD 15 million to support important FinTech enterprises. Planning to invest directly in a total of 20 different enterprises, QNBeyond Ventures will also take part in other venture capital funds as an investor.

COVID-19 pandemic undoubtedly affected both ways of doing business and working order for everybody with its impact on the economy. However, we paid attention to our social responsibility, and changed our training for children to online platform under our CSR Platform, Small Hands Big Dreams, with migration quickly in two months. The By the Power of Dreams Project that we realize in association with TOG (Community Volunteers Foundation) and Tiny Hands Are Coding Project, together with the Habitat Association, were also moved to online platform, where we deliver them to all children in Turkey free-of-charge.

I would like to thank our bankers, clients, all of our strategic business partners and correspondent banks, who reinforce our Bank’s strong progress in these challenging times.

Kind regards,  
Temel Güzeloğlu  
General Manager  
QNB Finansbank A.Ş.
